August 30, 2026

With great devotion and unity with True Mother, Bolivia reached 1,630 registrations nationwide for the Great Summer Works.

On Sunday, August 30, a rebroadcast was streamed across the country. The activity began with an explanation of the meaning of the Grace of the Great Works, led by Pastor Franz Quispe. In his message, he especially highlighted the benefit of Chayang Yeoksa as a spiritual tool for liberating evil spirits from our lives, thereby allowing us to heal the heart, cleanse our ancestral lineage, and improve our relationship with God and others. This point was key for new guests registering for the first time, as they were able to understand the practical and profound value of receiving this grace.

Next, the rebroadcast video was shared, and each guest was able to participate in the Chayang Yeoksa session.

Demonstrating unity, the six main churches, CARP centers, and Home Churches connected to the broadcast. Spaces were even set up inside the homes of blessed families so that new registrants could participate.

This mobilization was also a great outreach opportunity. Thanks to the commitment of the members, relatives, neighbors, and spiritual children were contacted, resulting not only in the participation of new members, but also in the reunion of inactive members who reconnected with grace. In this way, Bolivia honored the 14th Anniversary of True Father's Cheonju Seonghwa, strengthening unity, witnessing, and the hope for a country more centered on God.
