**Weekly Message (No. 26) from Rev. Ken Doo, Director-General of the World Mission Headquarters, The Great Epic of the Chosen Han People of Korea: Fulfilled through Our Lives, delivered on July 24, 2026**

Beloved and esteemed blessed families and members throughout the world,

I pray that your heart of hyojeong - filial love - for True Mother and the feeling that you miss her will permeate your daily lives, so that this week you can comfort Mother and also the heart of our Heavenly Parent.

**1. Summary of Last Week's Message**

Over the past three weeks, we have reflected together on why we must learn about The Great Epic of the Chosen Han People of Korea, what we are called to discover within it, and how the universal values of filial devotion (hyo) and heartfelt affection (jeong) become the very heart of God's providence to save humanity.

Today, as we bring this journey of learning to its conclusion, let us consider together how we can overcome the painful providential reality now before us, and how we can substantially establish Cheon Il

Guk - the kingdom of true love - within our own families.

## 2. The Conclusion of the Great Epic Revealed by True Father

On April 14, 2012, in Las Vegas, True Father concluded the final stage of the providence and proclaimed the fulfillment of his final mission as the Returning Messiah. At that historic pinnacle of the providence of salvation, he offered every accomplishment before Heaven and prayed with these earnest words:

"At the place where the divided testimony of the internal (invisible) God and the external (visible) God have been brought into complete unity, these two people, Sun Myung Moon and Hak Ja Han, now able to stand as the True Parents, have returned to the original unfallen position in the Garden of Eden, before it was said, 'If you eat of the fruit of the tree of the knowledge of good and evil, you shall surely die.'

Not merely one couple, but tens of thousands of couples - sons and daughters who had stood as enemies - have been brought into oneness through true education, thereby establishing within the unified family a one-centered realm of unity.

As we joyfully welcome all that has brought to fulfillment Heaven's victorious sovereign dominion and the Kingdom of Heaven, beginning with True Mother, beginning centered on the True Parents, and beginning anew as the Parents of second Adamic family, may this unity endure throughout all generations as we attend the original Creator, manifested as the God of day and the God of night.

On this occasion, commemorating the complete fulfillment, perfection, and consummation of this nation's tradition of loyalty and filial piety - embodied in Korea's history through figures such as Shim Cheong, Chunhyang, and Admiral Yi Sun-sin - I give thanks that everything has been accomplished through Your toil. I also give thanks for the devotion of True Mother and True Father, who have walked this course in accordance with Your will.

Upholding this as the memorial occasion bringing all these proceedings to their proper conclusion and offering them before Heaven, we have been granted this hour in which we could offer our dedication and reverent bows before Heaven. Father, please receive this hour with joy."

True Father's prayer is, in fact, the conclusion of The Great Epic of the Chosen Han People of Korea. In the first verse of Genesis in the Bible the Creator is called "Elohim." According to the times and providence the Creator is revealed through names such as "Yahweh," "Adonai," "the Almighty," and "Father," leading humanity into an ever-deeper understanding of God's nature. Moreover, True Father declared that the culmination of this entire providence is the dawning of the age in which "we can attend the original Creator who was once divided into the God of night and God of day." With True Mother's proclamation of Heavenly Parent, humanity entered the era in which the gates to the kingdom of heaven have been opened wide.

Furthermore, True Parents fulfilled the position of True Parents that the unfallen family of Adam was originally meant to establish, becoming the "Parents of the second Adamic family" and the true ancestors of all humankind. Through this, humanity has finally arrived at the starting point of Cheon Il Guk, where we attend Heavenly Parent in substantial reality. This is the providential conclusion that True Father described as bringing "to fulfillment Heaven's victorious sovereign dominion and the Kingdom of

Heaven," and it is the very "environment through which the dream of the Creator, Heavenly Parent, could be fulfilled on earth," as proclaimed by True Mother in her statement on July 10, 2026.

3. Living the Great Epic

How, then, are we to implement The Great Epic of the Chosen Han People in our daily lives?

First, we must move beyond a faith by which we know the Creator to living each day attending Heavenly Parent in substantial ways, sharing life together in the earthly kingdom of God. This is the true starting point of all faith.

Second, we must recognize that Heavenly Parent's love and character have permeated the history and culture of the Korean Peninsula, its traditions of filial devotion and heartfelt affection, and these have matured as a result, ultimately bearing fruit through our True Parents.

As we aspire to emulate the life and heart of True Father, the Returning Messiah, and True Mother, the Only Begotten Daughter who has come for the first time, we are called to become one with True Parents' lives. Furthermore, as husbands and wives, we ourselves must become blessed families who inherit and carry forward the tradition of True Parents.

Third, we must first practice hyo and jeong within our own families, that is, the vertical and horizontal love we have learned from Heavenly Parent and True Parents. As we who are parents and children, husbands and wives, and brothers and sisters become one through true love, we are called to extend that love to our neighbors, our communities, our nations, and the world, faithfully fulfilling the public

responsibilities Heavenly Parent has entrusted to each of us.

This is why True Father mentioned to Shim Cheong, Chunhyang, and Admiral Yi Sun-sin in his prayer. When we place Heavenly Parent at the center of our lives with the filial devotion of Shim Cheong, become one with True Parents through the unwavering fidelity of Chunhyang, and persevere in fulfilling Heaven's entrusted mission with the loyal dedication of Admiral Yi Sun-sin, then hyo and jeong - vertical and horizontal love - take tangible form within our families and in society.

This is the path of life that the Great Epic teaches us, and it is the path of the Cheon Il Guk blessed families that we must follow. Learning does not end with knowledge; it is brought to completion only when it is lived. As we attend Heavenly Parent substantially, become one with True Parents, and practice the culture of hyo and jeong in our families and in society, the Great Epic will no longer remain just a story written in a book. It will become the living providence of Heavenly Parent, continuing toward completion in our lives today.

In the end, everything we have studied over the past four weeks in The Great Epic of the Chosen Han People of Korea is contained within the single New Year Motto that True Mother bestowed upon us as words to be passed down through the generations to come.

"In the 13th year of Cheon Il Guk, when we attend the Creator Heavenly Parent substantially, let us, the blessed families around the world, become true sons and daughters of Cheon Il Guk who fulfill our responsibility as the chosen people in unity with True Parents!"

This New Year Motto is far more than a theme for action for a single year. It is True Mother's heavenly mandate calling us to live out The Great Epic of the Chosen Han People, and it is the standard by which every blessed family should live today.

#### **4. This Week's Practice: The 40-Day Period of Special Devotions**

Beloved brothers and sisters,

As announced in the official memo, the "Worldwide Blessed Families 40-Day Period of Special Devotions for Holy Mother Han" has begun and will run from July 22 through August 30. During this week, I sincerely ask you to unite in heart by offering prayer and Hoon Dok Hae, and by participating in the relay one-day fasts organized by the churches and providential organizations in accordance with the purpose of this special condition.

In this most solemn hour, may we firmly hold in one hand The Great Epic of the Chosen Han People, which Heaven has entrusted to us, and in the other an unwavering heart of hyojeong - filial love - toward Heaven. I earnestly pray that, during these forty days, blessed families throughout the world, in unity with True Mother, will faithfully fulfill their responsibility to the very end as true children of Cheon Il Guk.

As True Mother's New Year Motto calls us to do, let us attend our Creator Heavenly Parent substantially, and become the true sons and daughters of Cheon Il Guk who faithfully fulfill our responsibilities as a Chosen People united with True Parents. I pray that this 40-day period of special devotions will prove to be a precious turning point in accomplishing Heaven's Will. Thank you.
