REV. DOO - full bow to the audience To elder members, colleagues, and BF members, without making, offering my greetings I had to leave this place. For the past years, to all of you who have supported me, I would like to say TY. As Cheon Shim Won Director of H USA, I will do my best in fulfilling my mission. He bows again. big applause

Through last week's video, I spoke about how True Mother unfolded the Providence of Cheon Shim Won to save American churches and bring about a new revival Spirit and Truth. Today, although very briefly, I would like to speak about True Father's Las Vegas/ LV Providence that we have been forgetting. We always talk about F's Great Providence and Mission. But we actually, do not deeply fathom His Life in LV, where He Invested the last 4 years of His Life.

Therefore, the last 4 years where He fought the final decisive battle as a 2nd Advent of the Messiah have remained as a buried history within our Providence of history for far too long. People of the world remember LV as the city of pleasure and gambling. But looking at LV with the Eyes of Heavenly Providence, LV is a Holy Sanctum where True Father Fought a final decisive battle with Devotion to the point of vomiting Blood during the last four years of His Life.

We will remember the final ultimate Prayer that True Father Offered at CP Holy Ground just before His Holy Ascension in August of 2012. True Father Proclaimed,

'Today I have brought the Final Completion of Perfection and Return Fully before Heavenly Parent. I have Devoted My Entire Life Solely Before Heaven. So now, according to the Will, I Conclude My Whole Life, having Offered My Utmost Devotion.

According to the Garden of Eden without the fall, I have Transcended all the limitation cut off by the mistakes and portion of responsibility of Adam and Eve and achieved complete liberation and release. So, now, if you just follow behind the Parents, even those in the 4th dimension or the 14th dimension who could go to hell, can be adopted into the Kingdom of Heaven.

And finally He concluded His Life with a Final Prayer Statement, 'Everything has been Accomplished.'

We received deep grace listening to this prayer, but we actually did not deeply fathom where and what True Father had exactly been Victorious Over to be Able to Proudly Proclaim before Heaven 'Everything Has Been Accomplished/Fulfilled.'

This ultimate Prayer at CP did not suddenly fall from the sky. The Absolute Root and Background for this Prayer to be Proclaimed was precisely the Victory Proclamation Prayer Offered at Cheonwon Gung in LV

on April 14th 2012. And this was the Great Fruit of the Devotion Father Invested during His last Four Years in LV.

During the morning Hoon Dok Hae at Cheonwon Gung in LV, True Father suddenly held a Special Proclamation Ceremony and Proclaimed this Prayer before Heaven (a part of which follows):

'In the Position where the Internal God and the External God have become One, now the Two People, Sun Myung Moon and Hak Ja Han Who Have Become True Parents, have Completely Returned to the Garden of Eden without the fall, to the Position before God Said, 'If you eat the fruit of the Tree of the Knowledge of Good and Evil', you will surely die.'

Members, please look at the relationship between those two prayers. applause

My brothers and sisters, as I mentioned, please look at the relationship between those two prayers. If the prayer in LV was the Substantial Victory of Recovering the Original Position of Adam and Eve that was lost, Achieved after the fierce battle at the heart of Satan, the Final Prayer in CP right before His Holy Ascension, was the Completion of the Completion, Offering the Victorious Fruit of the Las Vegas Providence of the Altar of Heavenly Parent, giving the final Report of His Lifelong Mission.

Without the Substantial Victory in LV, True Father's Final Prayer of 'Everything Has Been Fulfilled' could not have Existed either.

Then, why did True Father have to fight that Great Final Decisive Battle? not in Korea, the Homeland of Faith, but in Las Vegas? which is Called a 'den of sin'.

True Parents's Established Korea as the Adam Nation, Japan as the Eve Nation and the United States as the Archangel Nation in 1987, and in 1988, in 1990 They Elevated Korea to the Father Nation, Japan to the Mother Nation and the United States to the Elder Son Nation. However, here, we must ask a very important Providential question.

It is a very natural process for Adam to grow and become a Father and Eve to grow and become a Mother, but we have not deeply wondered about, 'How did the archangel nation transform into the Eldest Son Nation?' What relationship did the archangel and the Elder Son Nation truly have? The fundamental cause of the fall of Adam and Eve was precisely the archangel.

Therefore, because the eldest son came as a result of the fruit of the fall, the fruit of the fall was placed under the archangel's dominion, and the correlation between the archangel and the eldest son came to be fulfilled within the nation of America. Then why LV of all places?

The great Principle of the Principle of Restoration through Indemnity in the Divine Principle is exactly that Restoration must restart from the very environment of the origin of where the fall occurred. If Adam and Eve had not fallen the Garden of Eden would have been the eternal Kingdom of Heaven on earth. But due to the fall of human ancestors, that environmental realm ended up becoming a hell on earth, governed by Satan. That is 'sin city'.

LV in the US is a symbol of the modern-day hell on earth, where human greed, pre-mature pleasure and the secularization of human civilization have reached their peak. Therefore, the US where True Father, the 2nd Coming of the Messiah, Who needed all 3 requirements to bring the Providence to Conclusion came to LV where those requirements were equipped.

1. The archangel, the culture of the fall exists

2. The eldest son result of the fall exists

3. LV, 'city of sin', which is the environmental realm of the fall, exists

This is the true reason why True Mother, the 2nd Advent of the Messiah, sought LV. This LV Providence was by no means decided impulsively.

True Parents went into the Position of Adam and Eve.

Over a long period of time, He Established the 3 Nations of Korea, the US and Japan as Providential Nations and Providential Symbolic Leaders and Places.

And looking at the Words of True Father, Who had already resolved, even amidst the extreme trials of Heungnam Prison that He would Conclude the Providence in LV in the future.

We can know that this was Heaven's meticulous Plan Predestined from the Beginning.. Precisely because

of that True Father's Image that I remember in those last LV days is an image of His fierce spiritual struggle with Satan every day, to the point where His Lips were completely blistered and Bleeding.

In the deepest den of Satan, True Father Completely Subjugated Satan and finally Liberated and Released the Position of the Original Adam and Eve. ((True Father needed to be the fallen son result of the fall that was Himself reBorn through Mother together as True Parents, in order to win the struggle with Satan, correct and true love satan? Is that right Rev. Doo? Can we say it like that? True Father was born of the fall, but took on the Mission of Jesus, and when did Father actual inherit the sinless Foundation of Jesus, Rev. Doo please?))

Therefore, the CP Holy Ground, which is the Original Homeland of True Parents, Sun Myung Moon and Hak Ja Han, Who were Born without original sin are the Alpha... ((True Father became without original sin, True Mother was Born without original sin, is that right? Would you say True Father had to go through True Mother, reverse course of the fall? True Parents together in the Position of Adam and Eve without original sin are the Alpha. Is that right, Rev. Doo?))... True Parents are the Alpha, which is the Starting Point of Heavenly Providence where They Rescue the fallen human ancestors, Adam and Eve from the Heart of satan and completely rebirth them, which can be said to be the Omega, the Completion of the Providence.

Beloved members, even after True Father's Holy Ascension, the Providence of LV never stopped. In 2013, after True Father's Holy Ascension, True Mother suddenly Visited LV. And She Resolutely Proclaimed before Heaven, 'I will Completely Finish what True Father Started.'

According to that Promise, Mother ultimately Led the Construction of the International Peace Education Center, IPEC, which had been halted due to the suspended construction at the time, to Completion, and continued the Lineage of the Las Vegas Providence Imbued with Father's Dream, without letting go for even a single moment.

And today, upon the fruit of that Victory, True Mother Established the LV Cheon Shim Won in the US. Upon the Foundation of Omega where True Father was Victorious with Blood and Sweat during the last 4 Years of His Life, and upon the Foundation which True Mother Protected and Completed to the end, it is the United Providence and Resolution of True Parents to now Ignite the Flames of the Holy Spirit to Resurrect the American Church and Complete the History of the Salvation of Humanity.

This is exactly the reason why we must remember Las Vegas. We must never forget the last 4 years of True Father's Life in LV. This is because it is the Holy Land of Promise where True Father's Final Victory of Everything has been Fulfilled and has born Fruit, which is blazing with the Holy Spirit of Cheon Shim Won today, through True Mother's Complete Inheritance and Completion.

Therefore, deeply embracing the Victory of Cheonhwa Gung in LV, and the Blood, Sweat and Tears of Devotion of True Parents in our heart, and harboring the earnest wish that you will participate with one heart in the Holy Great Works of the LV Cheon Shim Won, and give much interest and help, I have very briefly explained the Providence of Las Vegas to many members today. TY. (He bows again) big applause.
