I'm doing well

1676th Tenshin-en All-night Intensive Training

Summary of the main points from the Tenshin-en chief instructor

From the words of today's scripture reading: "I have passed through the depths of hell and experienced its bitter taste. It is absolutely impossible to proceed on a more difficult path. I asked God countless times, 'Why do you tell me to walk this path?' It is said that it is the indomitable determination and patience that have made me who I am today. You should not expect only heavenly things on the path to heaven. You must also expect to pass through the prison of the depths of hell. That is the most precious part where you can feel God's grace. When you go through such a process, you will be able to stand more firmly, and you will be able to grow even more as a person with a harmonious and comprehensive personality and spirituality. You will be able to understand heaven more deeply, and the experience of victory and patience will be your pride." It was said. We believe that if we become one with the true mother who has overcome all the paths of suffering, the return to the palace will surely be achieved.

Proof of 40 Disciples: I still remember the dream I had when I was 7 years old, the warm feeling of being held in my father's lap on a throne surrounded by golden light and soft clouds. At the age of 8, I was afflicted with severe spiritual pain due to unknown causes and underwent a trial of spiritual suffering, eventually leading to depression and thoughts of suicide. At the age of 17, I came to Seihai and joined the

40 Disciples. I spent sleepless nights, diligently and earnestly, cried, and when I pressed my hands together and hit my chest, the pain in my chest completely disappeared. Even though the physical pain was gone, I couldn't mentally organize myself, and when I knelt in the Tenjin Garden and asked, "Why am I suffering?" the voice of heaven said, "You know that pain. You want to know how much the heart of heaven is torn apart during that pain." I wept bitterly, feeling it deeply in my bones.

The true parents say, "When you encounter the sorrow of the Heavenly Parents, you will find that the Heavenly Parents are more pitiful than the most pitiful people in this world." According to the father, "Even if they strip away the flesh and bones and extract the marrow to sell it, they have walked the path of Mi-ju to wipe away the tears of the Heavenly Parents' sorrow and to resolve their grudges." The father said that even if he was tired and in a difficult situation, he felt his body tighten up when he heard the word Mi-ju.

The father, moved by the testimony of the second-generation child, offered a passionate prayer for all the second-generation youth in the unified family, and it was said that the daughter's depression was cured. The fathers listening online are asked to keep this testimony in their hearts. Praying for the nation and the world brings blessings to individuals and families. It is a lesson that it is important to pray to control and subdue the evil spiritual world behind the physical phenomenon, as it is shown that it is important to have a strong power to give the mother a great strength by having all the food sources and blessed families apply for it and achieve unprecedented results.

The autumn festival is approaching. The current number of applicants is 98,976, and it will exceed 100,000 tomorrow. I pray that all the food sources and blessed families will apply and achieve unprecedented results, and that the mother will be given great strength.
