OPENING PRAYER OF GRATITUDE:

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

On this night, as You Called all of us to this Sacred Place of Cheon Shim Won, where all BFs from around the world gather in one heart to offer Prayer and Devotion and we (well with Gratitude to know the Heart with which) You have Guided each of us.

We heard the news that True Mother's bail has been approved. Up until today, we have offered prayer and devotion for True Mother's bail and for acquittal and release, and this news is truly precious news for all of us. However, still the freedom that True Mother has is very limited to be within the hospital. We pray for True Mother to be liberated from all the chains (of our indemnity and world indemnity that She has taken on in Her old age state of Holy Body on a cliff of death)

Today's bail is not the end, but only the beginning of a new hope for a path forward, and please allow all the court decisions and processes of our Mother's trial to be revealed with conscience, with Truth. And please allow our Mother's Name and Status to be protected so that we can meet the day of peace, day of hope, the hopeful day we've been waiting for sooner throughout our devotion.

Most honorable Heavenly Parent, the month of fruition, please allow our hope to pile hope upon hope, and please allow our devotion that has been piling up to be fruition for our True Mother to be released. Please Allow our prayer and Devotion to become such condition.

Also, tonight, all the members offering prayer and devotion, please restore your hope. Despite all the difficulties, please Allow us to (true) love each other (after how True Mother Loves). Please allow us to cultivate the heart of HPs unto Heaven so that we will never lose our faith and will fulfill our responsibilities centering on You. All of us will not stay just the name of chosen people, but we will testify what chosen people means throughout our lives so that we can be the filial sons and daughter who actually do Fulfill Your Dream, (making True Mother our Absolute Central Subject of our minds, hearts and bodies every moment.

The gratitude we offer today, please allow it to lead to the victory of tomorrow. Please allow our devotion we offer today, become a beautiful resolve of bringing joy back to Heavenly Parent and True Parents... After offering all these words I pray in my name, Jun Yu san of a BCF in grateful Attendance to HMH.

CHANYANG

TESTIMONY - Sister KIM A YON - Moshim Workshop

(bows and gratitude)

youngest daughter of 2 sons and 2 daughters

Since childhood, influenced by my parents who have deep faith, I've done various church activities, such as being Seonghwa Youth Teacher... I thought I had built up my own faith well... However, when I became a college student and went out into society, as I mingled with the social culture, there were moments where I made judgments that deviated from the Principled standards aimed for by the church and compromised them.

In the church I may have been seen as a 2nd generation with good faith, but in secular society I became an image no different than worldly people, and it felt as if I was living wearing two masks. I felt great psychological guilt and torment regarding this contradiction of the former faith of mine.

After that, there were moments of experiencing even greater heartistic conflicts that came to me. To resolve my exhaustion of heart, I went to a general 40-day Workshop in the winter of 2023. But the many graces I received ended up fading again amidst the busy college life and graduation. While looking for employment after graduation, I repeatedly saw a poster for the Hyo Jeong Youth Special Workshop. Feeling a desire to go, I participated in the Workshop with lax footsteps.

During the True Parents' Life Course Lecture, the Words 'Kingdom of Heavenly Parent' kept lingering in my head. I strongly had a thought that all this time I had been so absorbed in my own emotions and situation that I had lived completely forgetting the Circumstances of Heavenly Parent.

I'm feeling a heart of repentance that right now the Church is going through difficulty with Mother's

Suffering and yet I was doing nothing and just standing by. I came to participate in the 24th Yeongseong Workshop. It had a very hot, heartistic atmosphere, with the GWs and the Special Devotion for Mother's first trial.

At first, I was somewhat distracted and felt burdened. But I thought I must engage seriously so as not to become a hindrance to this Devotion. As we gathered in Devotion together, without realizing it, an apologetic heart toward Heavenly Parent and True Parents, and a continuously choked up feeling surged within. So, I became more emersed in that time.

However, when I received news of the result of Mother's first trial, just shed endless tears. I was so sorry for being a selfish child who only prioritized my own situation. I felt guilty of failing to fulfill my duty as a filial child before Mother Who has Sacrificed Her Entire Life Solely for the Will.

That day, thinking that this Yeongseong Workshop might be the only one in my life and wanting to use it as an opportunity to Offer utmost Devotion entirely for True Mother, just his once, I resolved to engage in the Workshop much more to make up for my inadequacies.

The next day, at the Opening Ceremony, after hearing Pres. Lee Gi-seong's Words, 'To become one with Mother you must change yourself 180 degrees.'

I who had always lived self-centeredly and hadn't even thought about changing, came to have the heart of wanting to empty myself out for the first time, wanting to become one with Mother. From that time on, with the heart of trying everything I could possibly do, I set devotion with the goal of offering 124 bows daily, and completing the reading of the Cheonseong Gyeong, True Parents's Life Course and earnestly Offering Devotion.

However, because True Parents did not feel as close to me as the parents who raised me, even thought I respected and loved Mother, there was distance. When I was holding a frustrated heart in deep agony about what I should do to be closer to Mother, I felt that I just had to go to the Tree of Hyo Jeong. So, I directed my steps there.

The moment I faced the Tree of Hyo Jeong, its serene and warm energy and tall... appearance felt as if I was facing Mother directly. As I placed my hand on the Hyo Jeong Tree and offered a prayer, without

realizing it, tears burst out, I remember the image of Mother touring the world while holding onto the painful leg, and yet always being a reliable Mom in front of the children, always worrying about us instead.

I prayed hoping that the Hyo Jeong Tree Energy would reach Heaven and Work for Mother Strength and swift release. I earnestly prayed to be given an opportunity to Attend our True Mother. Then deep within my heart the deep resonance and conviction came that True Mother is truly my Mother, and that took Root.

My heart wanted to fathom the Heart of Mother even more during the Cheon Shim Won Vigil Devotion. But especially the agony about what resonance is remained unresolved. So, I continuously had a frustrated heart, wondering what kind of feeling it was to resonate with Heavenly Parent and True Parents. What on earth is it to become one with Mother.

I came to engage in one-heart praise and one-heart resonance prayer. When I earnestly prayed, 'I want to resonate more with Heaven. I want to know more about the Love of Heavenly Parent and True Parents, so many tears fell without my realizing it and I could not stop them. Because I am someone who did not cry much, before the Vigil I even felt the more that it could not just be my tears. Could it be that I felt Heavenly Parent's Heart even a little bit?

Afterward, when offering CY, I thought, 'How exhausting and lonely the the Path of the Will that True Parents Walked must have been. And Their Love for us children touched me even more deeply in my heart. So, even while doing CY, tears naturally flowed. And while offering one-heart resonance prayer, fine-tuning that heart, thinking about how sad Heavenly Parent and True Parents must be, and while looking at Mother Walking the Path of the Cross, uncontrollable tears poured out.

The more I cried out, 'Are these tears the tears of HyoJN, HeungJN and DMN? and asking 'How many tears are you shedding?' the more the tears flowed down. And I felt the deep sorrow that could not be fully expressed in words. Through this I was able to gradually know much more what it means to resonate.

It was frustrating to face my fallen nature and lacking aspects, but I was able to feel that Heaven is always with me and helping me so that I could overcome this and become a better version of myself. And I thought that I was Called to come to this Place to empty myself and be born again new through Cheonon Complex, which is like the Mother's Womb.

Therefore, I came to participate in this 12th Moshim Workshop with the heart of wanting to become a child who lives a life attending True Mother, in any given circumstances. Since it hasn't been long since I started receiving the Workshop, I haven't been able to clearly define moshim in my own heart, but as I came to learn about the Life of DMN and the Life of Attendance of True Mother Her Whole Life and True Parents, I could feel the Spirit of Sacrifice and Absolute Loyalty for Parents in any situation.

Through such a Life of DMN, I want to live a life of Attending to know more what Moshim is, and through various volunteer activities, I will feel more what true love is and continue to learn Attendance from a lower position.

I want to learn through this Workshop to be a child Attending True Mother, who can run to Her whenever She Calls. I came to realize that being able to be born as a 2nd gen child of the Blessing of Heavenly Parent and True Parents, is the greatest Blessing and pride of my life. To True Mother Who let me know my original identity, I will always live with gratitude for that grace of not giving up on me when I was

wandering, and reviving me again with Endurance and Love.

Now, I will definitely find what I can do for True Mother, become strength to True Mother and become a child who can truly Attend Her. TY for listening to my lacking testimony.

HJ PRAISE - JAPANESE Workshop TRAINEES - 'STAND UP'

TESTIMONY - UNA TAKANORI brother -

Moshim 40-day Workshop - Japanese Workshop Team Coordinator

(bows and gratitude)

(the great CY leader 2nd gen) I am Coordinator and husband of my beloved IHayong... I would like to testify about the grace of the TC and Cheon Shim Won.

My parents are of the 6,000 Couples and my aunts are also BFs... Because my grandparents were also BFs, I grew up considering a life of faith as a matter of course. But even in this Blessed position, in my 2nd year of high school, I did not lead a life of faith on my own accord.

However, my parents always taught me how amazing True Parents are, and showed me the image of doing Hoon Dok Hae, without me missing a single day, and attending Sunday Service. They also told me, you are a child of Heavenly Parent and True Parents. Perhaps because of that, even though my faith was not deep, I did not have negative thoughts about Heavenly Parent and True Parents.

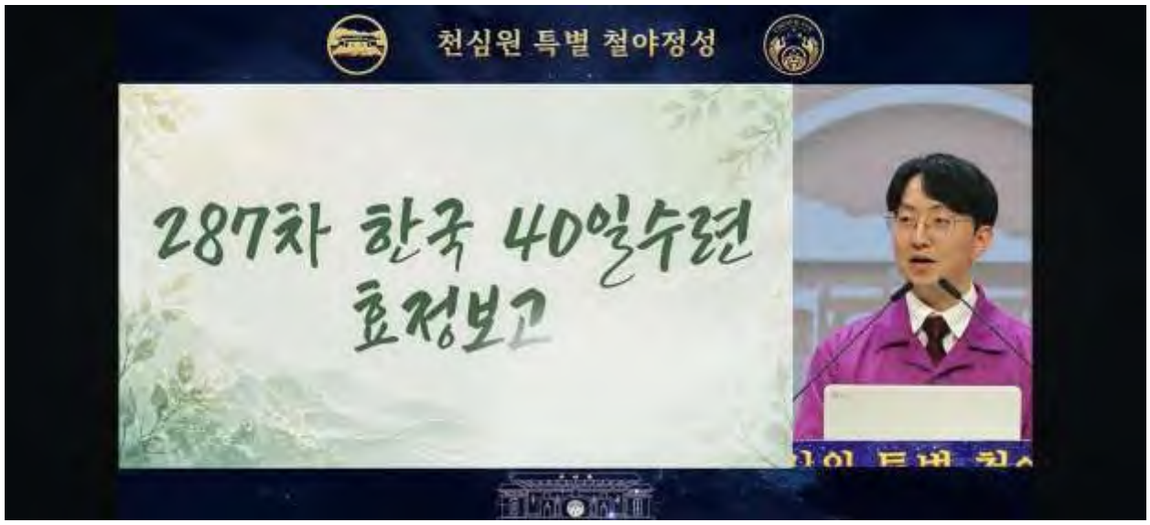

When I was a high school student I did resolve on my own to attend Yeongseong 40-day Workshop. And seeing brothers and sisters of the same generation leading a life of faith earnestly there, I was moved and engaged in the Workshop, earnestly in my own way. However, until I finished the Workshop, I did not have any special experience of Meeting Heavenly Parent, or anything like that.

But after the Graduation Ceremony, I boarded the airplane with a high fever, and I had a excessive anxiety that I might be caught in Japan due to the high fever. At that moment, I earnestly clung to Heaven. Thankfully, I was able to pass through the airport without any problem. Through that incident, I became convinced of Heavenly Parent Working even for me.

After that, while living earnestly, I tried to testify to Heavenly Parent, through Club activities and studies. Within six months, I experienced various issues and incidents such as bronchitis and blood pressure related illnesses, and eventually 'orthostatic dysregulation' related to the autonomic nervous system. Such symptoms continued for 2 to 3 years and gave me a hard time. Because it was difficult to wake up in the morning, I could not attend school properly, and failing the required days, I had to quit school.

I tried doing part-time jobs, but due to dizziness, I could not do them for long. My brain wasn't working properly either, so I couldn't even study. Becoming increasingly depressed, I even had the thought of wanting to die for the first time in my life. I was so resentful in myself, unable to do anything after having said I would help fulfill Heaven's Dream.

With the feeling that this was the end, I prayed to Heavenly Parent, 'Heavenly Parent, please send me to the SW. I seem to be a burden to both the Providence and my family. It would seem better if I weren't here. Even if you make me stay here, please establish at least one person who will advance for the Will of Heaven. However, if there is one thing I regret, it is that I also wanted to receive the Blessing and form a family.'

At that moment, praying like a final Will and Testament and covered in tears and snot, I heard Heavenly Parent's Answer for the first time in my life:

"Doing the Providence on earth is many times easier than doing the Providence in the SW."

Those Words were heard from deep within my heart. At that moment, I realized, 'Oh, I still have work to do on earth.' Gaining that realization, I immediately told my parents that I will go to CP's 40-Day Workshop. So, on October 4th 2014, I came to receive the Workshop twice in a row. Surprisingly, as soon as I arrived in CP, the symptoms that had tormented me, began to disappear. Both the dizziness and the feeling that my brain wasn't working properly, went away.

So, after about 2 weeks, I even challenged myself to enjoy the Chanyang Session Team. I came to take on the vocal role for the first time then. Because I never thought a patient like me could do it, I always clung to Heaven and the SW. As I prayed, 'Although I am lacking, please work through me,' I myself was moved and came to offer Chanyang.

I was truly joyful. I had the sensation that I was doing the work I needed to do for Heavenly Parent and the SW. I usually blame myself a lot. Therefore, hoping that today resentment spirits and dark spirits would be liberated within me, as soon as possible. The time when someone like me experienced full health was after completing the 210th ancestor liberation.

I felt the heavy spirit realm at home and had a hard time spiritually. And when it was severe, there were even times when my body was taken over. However, I did not give up, and I persuaded my parents and even my grandparents, and receiving help from my aunt as well, I was able to complete ancestor liberation and ancestor Blessing up to the 210th generation.

When I did that, miraculously, the symptoms I had been experiencing disappeared. (where the applause...

I'm applauding) Not only me, but also my younger brother was also suffering from a similar situation as me. But as soon as he completed the 40-day Workshop 3 times and completed ancestor liberation up to 210 generations, his symptoms improved.

Because I had this experience, even while attending Sun Moon University, I made sure to visit the TC once a month without fail and steadily continued volunteering as well. It was work I started from the heart wanting to repay the grace I received.

Meanwhile at the school, I came to work as an intern at the TC, and after graduation I came to hear the words of the Vice Director asking how it would be to work at the TC. While agonizing over what path I should take in the future, during the GWs I coincidentally came to stand on the podium with the lecturers, and at that moment I came to feel that Heavenly Parent wanted to use me here. Like that, I came to choose the path of working at the TC.

Afterward, going through various difficulties, there were also moments when I felt that I would collapse again. However, even then the place that held onto me was Cheon Shim Won. As I went to Cheon Shim Won every day and offered a prayer for 21 minutes or more, my mind and heart gradually healed and hope would begin to rise again.

Due to pain caused by the Blessing, I thought I would not receive the Blessing for the rest of my life. But as time passed, I came to realize that Heaven's Wish lies in the Blessing. I also received a Revelation about a candidate who is the child of a Korean/Japanese family living in Korea. And people around me were of the same heart as me.

Offering devotions for the Blessing like that, I came to meet a woman. That person was exactly my beloved I Hyong, who is my heavenly parent... applause... Like that, I received the Blessing in 2022 and through my wife I felt the value of the Blessing and began offering Devotion even more earnestly.

However, difficulty visited our family as well. The pregnancy did not happen easily, and even the pregnancy that came with difficulty ended up as a miscarriage. While caring for my wife who was hurt far more than me due to the miscarriage, attending the Vigil Devotion once a week was the best I could do.

However, included the GWs Vigil, especially during the Vigil of the 900th Vigil Devotion, True Parents

Appeared through a Vision and Gave me comfort. And I repented with tears for not being able to offer Vigil Devotion. After that, we gradually increased the frequency step by step. And around the time we passed the 1,000th Vigil, my wife became pregnant again applause

As she entered the stable period, she began with the Workshop for pregnant sisters. After that, I also came to the 12th Yeongseong 40-day Workshop. I received truly a lot of grace during that time. For the first time in my life, I even received a Mission from Father Saying, 'In reviving the 2nd and 3rd generation, do you not have the Chanyang Works. Become the person in charge of the Chanyang Sessions.'

In the past when I had thought to die, I was feeling that I still had work to do on earth. But I came to feel that my role was to find and establish even one child of Heavenly Parent through CY yoksa. Afterward, doing my absolute best, I prayed to Heavenly Parent and True Parents to Work through my body. And I am standing on stage even commanding the ancestors and AGSs in the SW. (I'm applauding)

When I came to start H Japan 3-Day Workshop, I was able to be invested as a lecturer. Looking back at myself praying with tears while giving lectures, I myself was amazed, and I could deeply realize that it wasn't myself, but that Heavenly Parent was Working. Even while progressing up to the 13th Workshop, days where my tears would not stop continued. And those times made me grow even more.

At the same time, by establishing me as a person in charge of practical affairs for Seonghwa 21-day Workshop, I was also able to have time to be together with Heavenly Parent and True Parents. I shed many tears as a father and also as an elder believer. This is because the image of the trainees growing up, and the image of them offering Devotion for Mother while resonating with Heaven was so moving.

I came to feel with my skin, that because True Parents Directly Guide and Educate, amazing miracle-like things such as this can happen. I have another mission beside lecturers, and that is the restoration of Gapyeong. During the Yeongseong Workshop, I received a Revelation to go to Seongtown Union President, and through that opportunity, I came to take charge of H tribal messiah in Yeon ha tu Village in Seongtown together with the Coordinator Kim Ho jin.

There were times when we received criticism from the residents. And there were times when we were told not to come, but with uninterrupted advance, while commanding and calling out name prayers to the SW, we continued to do spiritual clearings, such as liberation of the memorial spirits and reception of devotion. Now, the village heads treat us favorably, and when we visit the village, the residents also welcome us gladly.

And currently to offer even more devotion for Mother's Longevity, Good Health and Complete Release, we have developed a new program for H Japan telling members, 'I am Attending the 12 Moshim 40-day Workshop. To me, the #12 has a special meaning. In 2012, I Met Heavenly Parent for the first time. And Attending the 12 Moshim 21-day Workshop, that was on the 12th Year of Cheon Il Guk. And I had a Question and Answer Session with Father for the first time.

The Chanyang Yoksa Session, which is also my mission also started Oct 2014, and has already been continuing for 12 years. And this time the Moshim 40-day Workshop is also the 12th. I believe that all of these things are not coincidence. Practicing the life of Attendance during this period awaiting that day when True Mother Comes, I will invest completely into the 14th H Japan Cheonshim Resonance Prayer Workshop, and on the GWs starting from tomorrow, I will do my utmost devotion so that Heavenly Parent can Work more actively.

Moving forward, I will do my best in my position I am in. And I as a family will become a family that

brings joy to True Parents by being victorious as a 2nd generation CheonBo family and restoring Seongtown. Although it's lacking, I would like to conclude my testimony.

HJ REPORT - HANG YON WON - Korean Team Workshop Manager

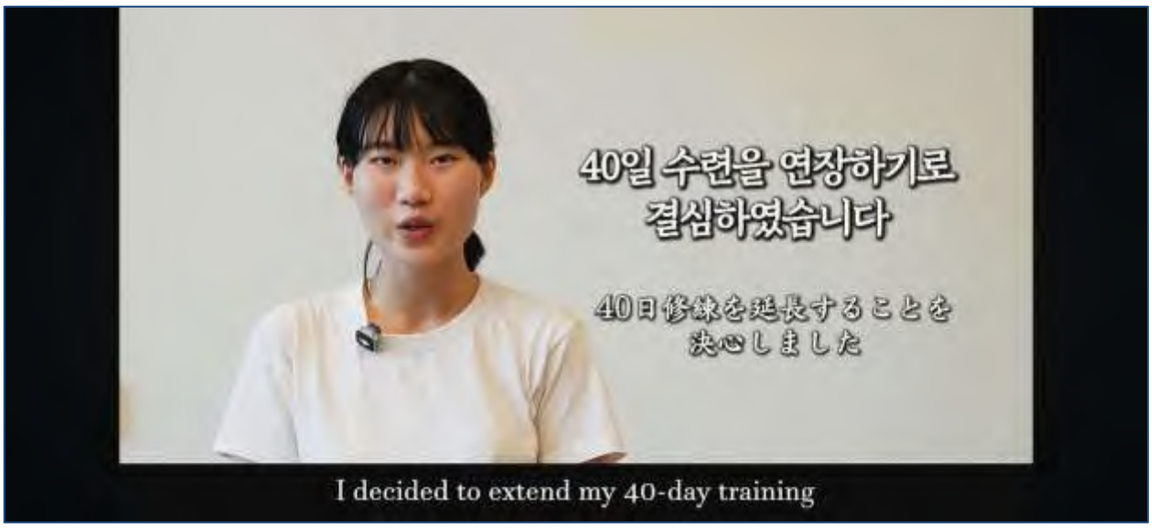

(bow and gratitude and greetings)

Before the Report, a question: Why do we have to attend 40-day Workshop?

I would like to give a Holy Song. I don't know if this is the right title 'The Song of the Soldiers of Unification'

VIDEO to show this resolution

49-day Workshop allowed me to make the turning point to begin my faith anew, and there was time to learn how to put those words into practice in my daily life, I was able to practice true love as True Parents have told us to practice. I will dedicate for the sake of Heavenly Parent and True Parents. Instead of living for my own sake I will live a life of serving and loving others, for the sake of others, living a life of loving others.

I will no longer hide in the shadow of True Parents. T

he Path that Heavenly Parent and True Parents are Walking, with the wave my pure water brothers and sisters, I will make this pillar of (True Parents) Love in the world.

They sing: and proclaim: 'Let us become more like the heart of True Parents.

BREAK and BUSKING

Hoon Dok Hae

Pour out all your devotion until Heaven Officially Recognizing it... With early pioneer witnessing in 1957, Father slept only 2 hours a day. Taking the members with Me, we stayed up all night bowing down and praying. Therefore, when departing for a new world in 1960, in order to be Victorious in the 21-Year Course, without being ashamed before Heaven Myself, I made those Preparations and Trained for 7 years.

After Establishing the Unification Church, I set My Seed in the Inner Room) and Offered Devotion every single day for 7 years. Pour out all your devotion. Pour it out until you are exhausted. Pour it out even if you are hungry. Pour it out amidst sleepiness. Pour it out until My Seed with such a Heart, even if Unification Church members today cannot receive it, this Seed will go out to the world with God's Heart. Believing there will definitely be a day when it is Harvested at a certain time, I thought that, if it cannot be Harvested in Korea, it will be Harvested.

In the early days of the Unification Church in Korea, Father Prayed while shedding his Nose Bleeds. Representing His Blood, if this could become a Nose Bleed that could not only make all people ashamed, but also what they cannot repay even if they wail loudly, what a glory that would be. I thought, if I were hidden in a position shouting that I will take the beating that all people were meant to take, what a glorious beating that would be?

You must stand at the forefront now. In the early days, Father Trained the members day and night so as not to make them just people who drift along in the evil world. On the rainy days, we will climb up Mount Fanah (?), while being drenched in the pouring rain. Even if we slipped while climbing, we kept climbing. Not climbing was not an option. I trained them so that they would not become losers or defeated soldiers when stepping out onto the great battlefield where they could fight for the nation, and

fight for the world in the future.

I gave them such Training while receiving all kinds of insults. When Father was raising people in 1957 I used the one-on-one strategy. What remains is the one-on-one strategy. Even while lecturing to only one person, I did it with the same mindset as if lecturing to a hundred or a thousand people. I thought that thousands and tens of thousands of people depended on that one person.

To make them a person who could listen to whatever Command that I gave, I had to make that much Devotion and create the motivation for them to be able to do so.

Today, 40-day Workshop Opening Ceremony took place.

We only have a few days left for the GWs, and current registration is more than 122,000... Korea 18,000... more than 86,000 and they are looking to have unprecedented number and that's what I expect... big applause

In the Summer GWs, there was more than 87,000. If they do a little bit more, they will go beyond summer GWs and setting a new record.

Internationally, 16,617 had registered and in the Summer GWs 43,090 people. So, right now the international number count is not fully organized is why the numbers are still low, but all the BFs must set a standard so that Heaven can Work. That is what we must do. We still have some time left, so I hope all the leaders and members become one.

During this GWs, by making a Victory, let us bring Great Strength to True Mother. I hope you can make that happen.

Today, Kim Myeon shared a precious testimony. After Attending the Moshim Workshop and then going out to the world, she felt her faith wavering. So, as she Attending the Hyo Special Workshop, the Plea of Heavenly Parent did not leave her mind, so eventually she decided to Attend this Yeongseong Workshop. And she thought, 'While True Mother is Suffering, I have been as a bystander, and I should not be like that.

With that heart, she joined the Workshop, and as she saw the result of the 1st trial, she could not help but to shed endless tears. And the Yeongseong Workshop could be the one and only time in one's lifetime, and truly, for our True Mother, she
