BOW and PLEDGE #3 and 4

OPENING PRAYER:

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

We thank You for most Boundless Grace and Love. Our Devotion in Cheon Shim Won today is that we may Resonate with the Heart of a deepest missed True Father and True Mother. How we Miss You True Father. We Reflect upon Your Life in the early days True Father, when You poured out Your Yeongseong until 3 or 4 in the morning, practicing Devotion with a Shimjeong that Pours Out all Your Emotion, Poured Out when You're Exhausted, Poured Out when You're so Hungry, even when sleep overwhelms You, Pouring Devotion Out until Heaven Recognizes It.

When You Thought of Heavenly Parent, Your Chest Would Tighten Up, with a loss of Words, Wailing as You come as a Tree of Life that is Prayer. With Deepest Tears and Sincere Devotion that we are able to Live Today as the children of True Parents. Beloved True Parents of HEH, we pray that the deeds of

Shimjeong deepened, so that You Who Bear this Heart of Tears Will Become the only Love that Flows in our Families and in our Gatherings.

May ever single word we pray and every drop of tears we shed become rivers and ocean of Devotion for Fulfillment of Your Will and Your Works through us (beyond our limitations when we spare nothing of or true desire of heart and vestment) Even if we cannot see the Fruits right before our eyes, please Guide us to become the children that Heaven remembers, offering our Jeongseong with Gratitude.

In the Cheon Shim Won Special Vigil Devotion, please Allow us to always learn more the Shimjeong Heart of True Parents Who Bore the Cosmic Responsibility and could not fall into a deep Sleep for even a single day. Let us be the first with Them to look after Your Pain and each other's pain, holding hands and hearts with all other brothers and sisters, each in the mission You Entrusted to us.

Let us Fulfill our responsibilities and missions to the very end with all resolve, 'I will do Devotion first, I will Love first, I will pay first, until Your Dream Becomes the Living, Breathing Reality in all of our lives.'

Beloved Holy Mother, our True Mother, we earnestly pray that our sincere Devotion may come as even a small comfort to You, True Mother, Who have Offered Absolutely Everything for the Fulfillment of the Will for Heavenly Parent's Dream.

Please Heal and Restore Mother's Holy Body to Robust Health. Please Work so that Her Truth and Cosmic Truth will be Completely Brought to Light. Please Work (so that all of us and the world's people are shaken to the core to awaken to Heaven's Call, and the Courts' Officials are shaken to the core to awaken to protect not negate in any way Her Value of Heart and Life Identity and return to Her as Her child of Heaven's Conscience and Justice revived.) Let us stay with Her every single moment, even as True Father does.

Please Personally Work upon us this night and through the Words and through our Praise, let us awaken, let gratitude be Revived, let our earnest prayers Resonate with Cheonshim. Please Pour Your Love through us into the wounded spirits (the broken spirits in the way to reach every spirit working against its own knowing how it is Loved) (to be in the contagious Wave of Healing and Revival of Original Intent)

Most Honorable Love Parent, please Grant Your exhausted children strength to rise again. Embracing the Grace we receive here, please Guide us to become those who convey warm Love for respected families and churches. TY, TY once again for Granting us the Cheon Shim Won Special Vigil Devotion, the Greatest and most precious Gift that Heaven can bestow.

We earnestly hope and pray that You will Joyfully Accept all of our Devotion, and all of our Jeongseong today and that we may Meet You Directly Presiding over this Devotion Session today.

I offer this prayer in the name of Kim Ju won of a BF in grateful Attendance to Holy Mother Han.

1st HJ REPORT - 1st COALITION REPORT

Secretary General PANG SANG IL

CHAIRMAN - Coalition Chairman of Seongmyeon

(He bows and greeting and long bow at the podium and

gratitude especially to Heavenly Parent and True Parents and Pres. Lee Gi-seong (Couple), who always

Offers utmost Devotion on the front line...)

True Mother's Words:

'In this Cheonon Area we need to shorten the time. If we believe and act, Heaven will Work and make Great Results. Do you understand? When a person is dying of thirst, a single drop of water is not just water, it is Life and Hope. I believe that for our Unification Movement today, the Cheon Shim Won Vigil Devotion is exactly that, a drop of water of Life, the Life-Giving Water and the well spring of New Hope.

No matter what difficulties or trails come our way, as long as we hold onto Heaven and Offer our Devotion at Cheon Shim Won will never fade.' applause

In Seongmyeon, there is a historical (beautiful) mountain named, Chunyongson... There are interesting legends concerning I Song Geh, the Founder of the First King of Chunyong Dynasty has been passed down named after this mountain.

According to the legend, when I Sang Geh came here to hunt, he couldn't catch a single animal, but he offered a ritual to the mountain deity, and afterward he was finally able to catch a wild boar. And it is said that the meaning of the name, Ghunyongson, is 'Mountain of Praying to the Spirit', originated from this story of offering a ritual to the mountain deity.

This mountain also features 'Nami Rock' which holds the legend that General Nami, a famous general of Chosan trained in martial arts there. As you can see Seongmon is a land where rich history and legends breathe.

And today, Seongmon is also home to the 'Garden of the Morning Calm', which is a place visited by countless tourists from all over the country seeking beautiful nature throughout all four seasons.

When I first came to Seongmon I understood that there was only one family living in this entire area. I was at a loss as to how or where to even begin. However, President Lee Gi-seong who had received True Mother's Special Words, emphasized that as the Church Leader of the Cheonon District, that we must lay a foundation on the front line, and he practically employed tribal messiahs to the region. This became the crucial turning point for Seongmon Church. I would like to take this opportunity to express my deepest

gratitude to Pres. Lee Gi-seong for actively supporting the front line and deploying our members here. applause

At first, we didn't even have a place to hold Sunday Service. So, we rented a space at the Kensington Hotel for our very first Service. That day was September 29, 2024. And it has already become a full two-year anniversary, but the main fact is that, long before we even started, Heaven had already prepared righteous people.

As I visited Seongmon in search for members, I found that Pastor Park Yun mon of the 6,000 Blessed Couples had already settled here and was living here for six years. Rev. Park told us that he moved here because True Parents Said, 'In the future, you must live in the land of Gapyeong.

He told us this, and then without giving up we started visited one house after another. And in that process, we also met Family members from the 430 Blessed Couples. We also learned that precious individuals were living in Seongmon, not just the connections related to Chairmon Ijeh sok's wife, but the Chairman Kang Seong won.

Among them was someone who had lived a devoted life of faith, but as many years passed, they had forgotten much of the Divine Principle, so we gifted them a copy of the Cheonseong gyeong. And I'm so grateful to say that they are now reading it every single day. I believe that fact, a person who had drifted away is now reading the CSG, is the fruit of restoration that cannot be measured by numbers. applause

Then, at the 13th place we visited, we purchased a restaurant called 'Freshly-Cooked Rice', or katchimbak, to serve as our church. That name literally means, 'warm rice', and while looking up the name, it crossed my mind that the word 'freshly caught' sounds like the Word, God. So, couldn't it mean, 'rice cooked by God'? Wouldn't it be a precious meal for True Mother to try even once. We are preparing it in order to Attend True Mother, at least once in this restaurant.

We dedicated the Seongmon Family Church and began activities to create the environment in earnest. There was about 400 to 500 people, and on this day many distinguished guests including President Lee Gi-seong and President Song Il Chan Attended. And then we did the Great Education of the Epic History of the Chosen Han People.

In Seongmon, we mobilized people with the bus so that we could bring the relatives of Seongmon. And a lot of the leaders were so moved. And at that time, on March 29, this Event, the Hyo Jeong Cultural Festival was held. And we have 14 villages, and we were told to mobilize one bus per village, and the Dedication Ceremony as a pioneer church, was done on March

But just 14 days later, having such event, we prepared a bus for each village. And I was deeply affected (about the possibility of filling all the buses), but we turned out to be able to see all of the busses be filled up. applause... 560 were mobilized.

The special forces of the Heavenly tribal messiahs every day, without a single day of rest, they really had an amazing result. And the total population of Seongmon is about 5,300, yet 560, about 560 people was about 1/10th of the entire population. And we thought, 'This should not be a church that just waits, but a church that reaches out.'

And on April 13, 2025, the historic Cheonwon Gung Entrance Ceremony was held. And just after we held it, so that all of the villagers of Seongmon could receive such joyful Event, we made the slogan, 'Share the Joy of Entering Cheonwon Gung' with all the residents of Seongmon.

And then, we personally visited all the 14 villages of Seongmon and hosted the 'Filial Piety Banquets' to Celebrate Entrance into Cheonwon Gung. And about 100 to 550 residents of Cheonwon Gung came to join us, with a total of 750 people participated, and at that Place, we Introduced the Significance of Cheonwon Gung and the Dream of Heavenly Parent.

And last Christmas Eve in 2025, before the year is done and ended, they wanted to do a new Event where we invited the leaders of the villages and all guests, so we would be again, not a church that waits for people to come, but a church that reaches out. And there was an activity in Seongmon where they shared the Jajangmyeon of Love prepared by Director Chun Yu san. And we visited all 14 villages of Seongwon and had a sharing Event.

And the villagers said that the GPP members are the only ones that actually made Jajangmyeon, and they actually made a request, 'Could you possibly make this kind of volunteer work once every year.

And we have come to understand that in 2025, a massive flood occurred causing such damage, and it was

truly heartbreaking. However, at that time, our GPP Volunteer Group went straight to the disaster sites and really practiced the love, not only by words but in practiced relations.

And even though we know people's hearts are not opened by words of love, but by sincere words in action, I truly thought that this was a time when they could open their hearts when we stand by them in difficult times. And for the restoration of Seongmon, in the beginning we were ignored, and they were fearing us. They were treating us like aliens, 'Why are these Unification Church members in Seongmon?'

However, after two years, we are welcomed with open arms. Wherever we go in Seongmon, they will greet us first, and they will say that we are precious neighbors that should be within the village, and that is what they are witnessing. applause

I truly believe that all of the blood, sweat and tears of the H tribal messiahs are now miraculously being shared and witnessed. And there was a leader in Seongmon who used to have a cafe that he owned, but we are now running it, using the space as a place for free. He offered it to us.

And currently our Church Leader I Su chon is taking responsibility for running both the church and the cafe. She is really busy. And we're inviting all the guests to the cafe. And why don't we thank and encourage our church leader and tribal messiahs for their really hard work. applause

The dream we are dreaming is the restoration of Seongmon. Because we are actually working in Seongmon, we are actually expecting the vultures. They are asking why the building are growing larger here in CP, but I'm thinking that there needs to be more than the buildings showing growing larger, but the love must grow larger.

We'll visit the sites and villagers of Seongmon again and again to (plant seeds) and to meet even just one more person, connect even just one more family and connect them to Heaven. And it is said, 'Where there is devotion, there is hope.' And we really hope that our devotion becomes new life-giving water for the Unification Family.

And this Autumn, we had the Hyo Jeong Autumn Festival once again. The District Leader told us we only needed 80 people, but they worked so hard to invite 80 people, and at first we thought that because of the situation of our church that it might be difficult. However, we can that 117 people have participated

and really attended.

These are the images of our H tribal messiah Top Gun. These are the Top Gun of Seongmon.

2ND HJ REPORT

DIRECTOR OF EDUCATION DEPT CHUN YU SAN

(bow and greetings and gratitude)

Secretary General Pang Sang Il has given a report about the two-years' activities with the pioneering of Seongyong in a short period of time. It's really difficult to do that. In order for me to introduce the entire activity of Gapyeong, it's not sufficient in the short time. I ask for your understanding to give it through my small lense.

And I would like to give a report on the Gapyeong County worship service and the Gapyeong Autumn Festival. First, True Mother's Words:

True Mother: 'October is the month of liberation and the season of harvest, isn't it? Now is the time to put it into practice and take action to Substantially Fulfill that Dream for Heaven. Isn't that what Cheon Il Guk is, finding one person's precious Life. This is the work of true happiness.

Mother has Spoken that this is not only the season of harvest, but the season of liberation. Whenever it's October we can have a time to reflect on our past lives and we are able to see passed the results we have made. That is why True Mother has given us the Words that defining one's precious life is the Work of true happiness. These are Her Words.

So, centering on PL in Gapyeong County to Fulfill True Mother's Words, we are Working with our utmost Devotion. In Cheonon Grand Church, they will do education on the Great Epic, every Saturday. Even if it's just one or two people, the fact that they're doing it continuously and conscientiously, I feel that is precious because its educating new guests (in this encompassing way) when there is no more (only straight) Principle lectures for our guests. (paraphrase - There needs to be more time and continuous effort with this way of Epic focus Mother Directs, so that we don't just feel that the precious Divine Principle Lectures were stopped. With faithfulness to Mother to incorporate core Content of Principle and other True Parents's Theology in the Epic education, more results can come in a shorter time while Mother also Said about doing one-on-one... from that basis)

This lecture isn't just (intellectual) taking notes and learning, it is full of Shimjeong with the Purpose for which Heavenly Parent Created us, the Heartbreak of the fall and the Providence of Restoration through which Heaven longs to save us, it all came into view at once. Through this Lecture, I could deeply feel that this is the Providence of Heavenly Parent's Heart, Heavenly Parent's Shimjeong and Love for humankind.

From now on, I want to study the Word more deeply, live it out and firmly set the Center of my faith. This is how grace-filled the lectures were. And second this is one-on-one Divine Principle nurturing by our Church Leader Ho Chin cha. She's doing one-on-one nurturing for 46 people. The fact that she was able to do this... We don't see a lot of people doing this, but here is one of the testimonies:

As a new member, at first, I thought the Unification Church was a heresy and I called out a lot of prejudice. But when I did the one-on-one Principle study with Ho Duk cha, I came to see the depth of the Teaching. I was especially moved by the sincerity and devotion of the Church Leader who poured her whole heart into conveying the Principe. As I studied the Principle, I could look at what I had only known through the Bible with a whole new Perspective. I realized that the Bible knowledge I had was not everything.'

And the church leader will not just end in nurturing these 46 people, but 7 of them are participating in church services, 18 of them have already Attended the GWs, and tonight and especially on Fridays 14 people have Attended the Cheon Shim Won Vigil Devotions and last week in the 3-Day Cheonshim

resonance prayer Workshop, we have a lot of members here from H Japan who participated in the 3-Day, but from the Korean 2-Day Workshop, she invited 2 of the members, and from the Cheon Shim Won Resonance prayer, they were inspired to witness to their husbands and they began the unison prayer that they learned from the 3-Day Workshop. They have been offering such devotion according to their promise to do so. Applause

It is really surprising. All of our new members who just joined, come to the 3-Day Workshop and also participate in the one-heart resonance prayers. Also, at Gapyeong Church, in August, we invited 9 new members and had an open, joint Service. And we first made a one-heart-resonance prayer team. As such, we can see how we are educating and educated with the 3-Day Workshop implicated within the Church.

And we call ourselves 'brothers and sisters' but we didn't know the witnessing guests of our brothers and sisters in the church. But through this, they have made unison prayer in order to pray for the brothers and sisters around them and also for the leaders. Both vertical and horizontal is within this unison prayer.

So, having done such prayer meetings, every week after the Sunday Service ends, the Gapyeong Church, centering on Evangelist Ah I nuk, will go with some of the members on witnessing activities. But do you know what shindokeh shundo witnessing activity is? It is when getting the bite of a person, they will never let go.

So, he witnessed to one person that he will call every day without missing a single time for 365 days. And this is the realy righteous person who got Connected after being witnessed to after 365 days. And this is our new member who will participate in the Gapyeong Family Church.

His reflection: I can feel that Heaven has been slowly calling me

---

Hoon Dok Hae

The leader must stake everything and lead the whole and therefore cannot sleep deeply. After Founding the Unification Church, I would sit huddled in My room, offering Jeongseong every single day until 3 or 4 in the morning for 7 years

Unification Church Youth Speak Out

Gapyeong Youth Peace Rally for Religious Freedom

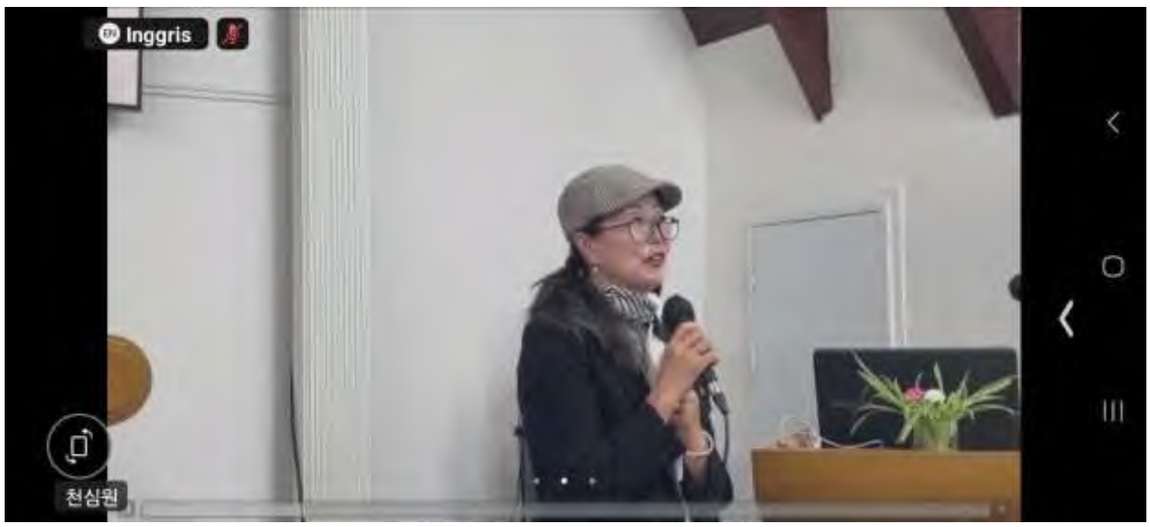

Cheonshimwon

*Although there are many misunderstandings and controversies right now, I believe that as time passes, the truth will surely be revealed, and the Will of Heaven will clearly come to Light...

*I will continue to live a life spreading true love to the world, following the path taught by (Holy Mother Han of) True Parents, so that we may forgive, love and become one

*The reason I stand here today is to boldly testify to The True Mother, the Substantial Holy Spirit, Han Hak-ja, the Grand Master, Who Lived Her Entire Life with True Love.

*I was born into the Unification Family as a 2nd generation member, but since childhood, the Name 'Unification Church' felt burdensome, and I was afraid of being called a 2nd generation of the Unification Church. I was born into the faith, but I have hated the Church for a long time.

I wanted to stay away from the church, thinking, 'I am different from them.' I didn't want to be just like them. I lived turning a blind eye like that.

*To be honest, from my perspective, there were some aspects of my parents' lives that I couldn't quite understand... (My father) Why did he go out of his way to choose and walk the difficult path that society avoids? I think I even wondered if the church members had really been brainwashed or manipulated.

However, (I came to see how) the parents I saw were not foolish people. Although they could have achieved greater success and lived a happier life by going out into society, they chose this faith because they believed that the teachings of the church, the teachings of True Parents and President Han Hak-ja could truly bring peace and happiness to this world.

*Han Hak Ja was a Person Who Dedicated Her Entire Life to the peace and love of humanity. Her Life was always about thinking of others first, always giving and giving more. After learning about Her Life, I could no longer blame Her or turn a blind eye to Her. I simply couldn't help but be moved.

*Even at this very moment, She was a True Mother Who always worried about us first, telling us to eat well, stay healthy, and be careful not to catch a cold.

Now, I will proudly testify about such a True Mother. This is because I know that the voice of criticism is raised. It is because one does not know the truth and has not learned it.

If I come to know even a little bit of my Mother's Great Love, and realize what She did to Give that Love, I know that I can never betray Her. So, I will make my Mother known more than anyone else.

*Residents/Citizens of Gapyeong, please look at President Han Hak-ja just as She is. (earnest) Please feel the tears She shed, and the Heart that Embraced the world. And we would like you to share the Heart of this Journey of Peace with us.

I believe if the people of South Korea sincerely trust each other and do not give up on warmth in this world, there is still hope for this Republic of Korea and for our future. And it is alive.

*Everyone, in this era where individualism and selfishness are rampant, if you look at news articles these days, you have likely seen many stories where people do not care about the misfortunes of others unless it serves their own interests. You have likely seen many such people, not only in articles but also in your own lives. Why do they live such a life with such values and such thoughts?

*Since I was young, I grew up watching how desperately my parents' generation held onto the word "peace". That peace did not merely mean the absence of war, but a state where hearts are connected between people ---that is, a world where people understand and respect each other and live together.

The reason I stand here today is precisely because I wanted to carry on that Spirit and reflect together on the path of peace that we must all create.

*Everyone, have you ever felt the joy of caring for others? This is a mindset where I wish for the other person's happiness above my own, offering help with the hope of being a small source of strength, and where even if I am struggling, if the other person is happy, that hardship does not feel like a burden to me.

*In our Unification Church we express the value of 'living for others' as true love, the heart that wants to keep giving love, even after giving true love over and over again. We express that heart that God has cherished as true love.

Our Mother of Peace, True Mother, President Han Hak Ja has Lived Her Entire Life Practicing this True Love for the nation and God, transcending the individual, the family, the tribe, and the people.

*... a scholar of classical Chinese, Moon Sun myung said, 'The family is a training ground for human beings to enter Heaven. And humanity is My family. He said to love everyone as my grandparents, my parents, and my siblings. This Commandment has become the Center of my life. I believe that loving our

neighbors like family and humanity like one family if the starting point for advancing toward world peace. The true love I believe in is not love expressed only in words, a love that can embrace even those who think differently from me or misunderstand me. That Love is the very Love Shown by Dr. Han Hak Ja's Existence.

*... watching that, I also became even more determined to carry on that legacy

*... Having come to know True Love, I also intend to become someone who shares that love. This is because we are all one family under Heaven.

*I believe that his is the path to true happiness for humanity. I am truly happy that I also was born as a 2nd generation child. In the future, I will receive the Blessing and create a happy family. Through such an appearance, I will bear witness to and show the people the path that True Parents have Walked.

*I will continue to be a person who creates peace and harmony, just as my True Mother showed me, and who spreads the love that began in the family to my neighbors, society and the world.

*I intend to inherit the Will of such True Parents, approach with love for the ideal of world peace, and move forward on a path of gratitude and forgiveness.

*We the young people gathered here, may all look like fools, but with pure hearts, we will live according to the Words and Teachings of the True Mother, the Holy Mother Han, President Han Hak-ja, in order to love this world. And we believe that, with these steps of ours, we are planting seeds of love in the world, and that someday those seeds will be nurtured and bear fruit.

(Behind the Banner saying: Gapyeong Youth Peace Rally for Religious Freedom Victory, Victory, Victory!) (Kim Ju Won is there up front with the beautiful, out-of-this-world pure water faces, who have Inherited The Holy Mother, Han Hak-ja's True-Love Heart for the world's New Beginnings of Hope...)
