Opening Prayer

Most Precious/Honorable Heavenly Parent

Beloved True Parents of HEH

We Offer deepest Gratitude to You today for Guiding us with Unchanging Heart of Shimjeong Connecting us here to the World Jeongseong HQ, Allowing us to conclude this day and resolve ourselves for a new tomorrow.

The time of our Vigil Devotion where our earnest shimjeong, when our hearts comes together to cry out in deep Longing and Tears flowing toward Heaven become streams and rivers ultimately flowing to be the Heaven's Ocean, this is the Greatest, Immeasurable Gift the Holy Mother has Bestowed upon us.

Thank You that we can blow away all evil energies through the Chanyang yoksa. We thank You that we can move forward with Spirit and Truth gathering our purest, immaculate jeongseong. We deeply thank You for Permitting us to Inherit Mother's Sorrowful Shimjeong, the Heart of Shimul Jeonseong.

Heavenly Parent, in this Providential Golden Age that will never return, in this truly grave and serious time, we pledge to Fulfill our portion of responsibilities. We will resonate completely with Cheonshim and move the SW, so that Heaven has no choice but the AGS World has no choice but to be Present and Father has no choice but to be Moved to Action.

We are gathering our jeongseong to move beyond Mother's limited bail toward Her absolute acquittal and release. Through our devotion today, we desperate desire and hope that Heaven may Work more powerfully that the Truth may be fully Revealed and that we could truly contribute to this Providence. How could we who have received the maximum grace possibly just stand still.

With Father's Fire-like Conviction, Father's Absolute True Love, the 1st, 2nd and 3rd generations have now completely united as 3-generation Realm. Through this those Blessed families Fulfill their responsibility as the Chosen People. Heavenly Parent, please be entirely with us. Please Permit us to become Your Proud and Direct children, no matter how adequate we may be, we will become those children who take step after step toward Heaven.

We earnestly Pray for Mother's acquittal and release and enduring Health and Longevity. I Offer this Prayer in the Name of Yu Su hun, a BF gratefully Attending HMH.

HJ REPORT - Nurse and Surgical Team Leader KIM JIN HWA - Magnolia Hospital

(bows and gratitude and greetings)

I am Head of the Operating Room and Head of External Affairs at HJ Magnolia Medical Center. At this time when our family is going through such a difficult time, I feel once again how important our role is as a hospital.

Let me briefly introduce myself. I received the Korean/Japanese Blessing in the 5th round of the Million Couple's Blessing and we have 2 sons and 2 daughters as you can see in the photo. We are a Cheon Il Guk family with 3 generations living together.

I have worked as a dedicated orthopedic nurse and nurse in charge of wound care for HMH, our True Mother. Let me greet you once again (He bows) big applause... And we have one more family connected to us through the Blessing of Heavenly Parent and True Parents of HEH. This is the family photo of my father-in-law and mother-in-law who live in Wajasaki Japan.

Do you remember me? Right here one year ago, I gave you a HJ Report on the treatment and surgeries our Orthopedic Surgeries Dept provides, and on the vists across the country for hospital visits information and health consultation. I am also that handsome nurse that PL speaks nothing but truth, talking about, 'Since when did the hospital have such a good-looking male nurse?' Do you remember now? TYVM

Two things I would like to share with you:

One years after the HJ Report at the Wangi won Pilgrimage, since June of last year, through these church activities and visits, I have been serving as a stepping stone between all of you and our hospital. Here are photos of the 70 churches I visited before the HJ Report last year. all different on the outside, but inside I could feel the warm Love of Heavenly Parent and True Parents, but as we go through the continued church visit report, please think to yourself, 'Oh, that is what this church looks like'.

Let's go together... Last November and December, I visited... Here is Yongudeh Grand Church, Nananju Gr Ch, Chinchu, Kimpo... January and February Jongu... Chonup Churches... Youngchon (appreciating that he goes through all the church's names... so far 50 and I will get to the others, please be patient with me) And when I'm asked, 'Isn't it hard working and then also visiting all the churches?' 'Yes, it is hard.' So, why am I doing this? And it is my one-sided Love for our members. (sweet and sacrificial and genuine and moving)

My faith may not run as deep as some of you who are attending this Vigil, but through these visits, I came to realize that I love our church members more than anyone. Crying along with your tears, worrying along with your worries, standing by you, not as a stranger but as a family. And then when I see you smile, in those moments, I came to feel in my heart that this love that worries even more for the child that is hurting with the very Shimjeong Heart of True Mother, these photos are my treasures taken with the members I love so dearly, even meeting for the very first time, feeling so close in no time, something all of us as FF share in practice of true love. TY to all that welcomed me as family.

This is the fruit of that one-sided love, that many members came to our hospital and experience the grace of Heavenly Parent and True Parents where spirit and body are healed together. A total of 18 members had surgery and many had outpatient care and checkups, and every day members reach out by phone with their questions and TY to each one for that.

Next, testimonies and videos of those who came:

... such amazing environment and kind staff, and could have a comfortable heart and seeing the Place where Father last Prayed and I want to participate with the medical checkups and TYSM now and in the future

... Yongbinghwon Pilgrimage... hesitated to have needed knee surgery but wanted to Attend my son's

Blessing time, but everything went so well and I could have the surgery and Attend my son's Blessing better... knowing the ancestors were with me there, I could trust and rely on the medical team all the more with great comfort and peace of mind

... many of you have seen someone getting around at the Blessing with a wheelchair which was her... going to a hospital that understanding our greater concerns in FF...

another... during my stay, the doctors and nurses took care of me with such kind and professional attention... in a way to personally feel the difference from True Parents's Prayer and Life... such a spiritually Sacred Place so that the joy and peace welled up within me, feeling as if I had come home...

... a hospital where even in pain, your heart can receive the care and comfort of a Heavenly level...

... got the examination and consultation and received the surgery and still able to attend the 40-Day Workshop... another time in septic shock and critically ill, my husband has completely recovered...

... when we were told to go, we had nowhere to go and were received again to continue treatment... and he was encouraged to have hope and did recover... (treated for septic shock and couldn't even walk when told he had to leave and was received back) Now, here he is walking with crutches... a hospital that heals both spirit and body which is exactly why True Mother founded it...

... another, May 11 of this year artificial hip replacement and recovery very smooth in every way from having surgery at this hospital... many wonderful aspects of the hospital... previously breast cancer surgery and experience of other hospitals... and trust in the staff are essential... a hospital Guided by Heavenly Parent gave a deep sense of peace... I could hear Cheon Shim Won Hol Songs inside the operating room, so brightly lit and all welcomed me and held my hand assuring that the surgery will go very well, and it felt like the Operating Room was completely filled with medical angels and I came to have a deeply peaceful heart to receive the surgery.

This is why True Mother established this hospital here... The residents of Gapyeong reached 1,000th surgery... This hospital is in remote area also centered on Cheon Shim Won...

Dr. Chanmusong... from shoulders to toes operating on just about anything... special joint replacement,

knee, shoulder and ankle, safer more specialized treatment... using the robot True Mother provided for us... there is always a doctor involved with robotic surgery...

endoscope and spine surgery, you can get back to ordinary life sooner... (visuals of robotics working) Just looking at it, comforting, or maybe not? Still, please be careful and safe not to run into me at the hospital.

8th Floor Yongmingwon the Holiest of Holy Grounds for True Parents Themselves, where True Father entered the SW... We opened it for the first time and began the Pilgrimage... Here are images of walking that path together... True Parents's Private Elevator, Hallway, the True Parents's Office, the Preservation Room for True Father's Hospital Gowns. True Parents's Family-Attended hospital beds, Reception Room Personally Decorated by True Mother, scenery through the window there, (I can almost see True Parents Smiling as They Watch the members coming and going at the TC)

Most of you are probably seeing the Yonbingwon for the first time. Isn't it so full of grace even just watching it on video.

... fron the moment of entering the Elevator, I felt a deep sense of gratitude and Sacred Spirit. Can you see their faces like being on the way to Meet their True Parents they missed so much. They can't hide their excitement. I love you all. There is a time when we place our hands on the Preservation Place of True Father's Gowns and pray.

... As I placed my hand on the Preservation Case, I vividly felt Father stroking my head and my tears would not stop. (When I first read this reflection, I felt as thought True Father was stroking my head too, and for a long while I couldn't open my eyes. I just stayed there feeling True Father's Touch.)

True Father's Hospital Room is the Holiest of Holy Rooms, always Sacred where medical angels are always present.... the moment I entered True Father's Hospital Room, I could feel True Father and True Mother and my tears wouldn't stop. (That was what the members wrote most often in their reflection, and I hope you will come and receive the grace of Yonbingwon Pilgrimage)

We are now taking registrations through the website for this Pilgrimage during the Autumn Special CheonBo GWs. Please register before it closes.

I like to introduce a community called 'Pure Nurse', a Community that serves as a protective fence for nurses of the Unification Family. Right now 29 pure nurses are part of it. And we also hold regular gatherings of health care workers. Among the participants of the spirituality and yeongseong and moshim academy, if there are any medical professionals in our Unification Family who would like to join us, you are always welcome.

Thank you for listening to my humble report. Thanks to Heavenly Parent and True Parents for giving me the opportunity to give this report. I'll be back in a year. TYVM (He bows again) big applause

2nd HJ REPORT - TAKAKI SEHGI - Lecturer from the Japanese Workshop Team - 297th Japanese Workshop

(bows and gratitude and greetings)

I am Structurer and Lecturer reporting on the grace of Japanese Workshop and Workshop for Blessed wives...

True Parents's Words on Jeongseong from March 10, 1997:

'The land of Chung Pyung centered on Spirit and Flesh and in the Position of Cooperation of Heaven and Earth, the Place where individuals can be born, the Heart Base, the Shimjeong Base where families can be Born and a nation can be Born. Furthermore, it is a Heartistic Base where the world of Heaven and earth can be Born, as well as where the Heaven Realm in Heaven and on Earth can be Built.

If the Unification Church Stands in the Position to overcome trials, it can develop by leaps and bounds. The fact that young people from around the world gather to receive education and Blessed Family receives Workshop to be BFs that advance into the world Based on this Land of Chung Pyung, this is something we can be proud of on behalf of Korea. It is not only something the people and the nation can be proud of, but also something Asia and all humanity can be proud of.'

Just as the Words given at the time, we can feel that this is Substantially coming true, right here at the HJ Cheonon H and E CheonBo TC. Aju! (Aju)

VIDEO - digest video - HJ H and E CheonBo TC

Everything here was grace applause of gratitude to Heavenly Parent and True Parents

This Workshop was held from September 5th to October 14th immediately following the immense grace of the Special GWs and Commemorating the 14th Anniversary of True Father's Seonghwa, the verdict of True Mother's Trial on October 30th 2026. 234 people participated and offered their sincere devotion. Three perspectives of the characteristics and grace of this 40-day Workshop:

First, held right after verdict of True Mother's first trial... With that unfair ruling 124 trainees came together with one heart to offer jeongseong and Devotion solely for True Mother hoping to offer comfort to Her Heart.

VIDEO - giving their utmost jeongseong with life-and-death determination and it is said that True Father gave this Message from the SW:

True Father: 'Endure hardship to open the Path of Heaven. When the Suffering ends, Victory is absolutely certain.'

During this Workshop period the 12th and the 13th resonance prayer 3-day WSs were held twice. Centered on them, the entire 40-day period became a deeply meaningful time of offering our most earnest prayers and jeongsong to True Mother.

VIDEO - testimonies

... participated in the 3-day Workshop twice... During the 12th Session, there was a unison prayer time and I prayed together with the brothers I was guided by Heaven to be with. However, I found myself constantly wanting them to pray more for me, and I quickly realized that this is a right. So, when the team's session came around, I was determined to change. I prayed, 'Please send me someone you truly wish to love through me'

And amazingly that very day, someone arrived whom I felt was guided directly to me. 'He mentioned wanting to Fulfill the Will' and I prayed for him realizing what a precious, invaluable talent he is for educational Providence and I earnestly hope he would continue to work hard. It was in that moment of praying for someone else, completely letting go of my own desires and praying in resonance with Cheonshim that I deeply felt the Presence of Heavenly Parent, Who absolutely Answers prayers.

Prayer was a key point that had been difficult for me, even when thinking I had the hang of it, realizing I was just shouting loudly but not really Connecting. I tried to pray exactly as my Original Mind Desired. Rather than praying, 'Please do this for me' I started praying, 'Since this is Heaven's Hope, please guide me in this way.' I prayed while completely entrusting myself to Heaven's Will.

As I felt that Guidance actively Working in my life, I truly felt that Heaven was listening. From that point on, I gained a bit more confidence in my prayers. So, rather than just praying asking for Guidance, my prayers gradually transformed into sincere pledges. I became able to pray from the bottom of my heart for True Mother, and I will invest my absolute best.

I believe that shift is what ultimately ignited my earnestness.

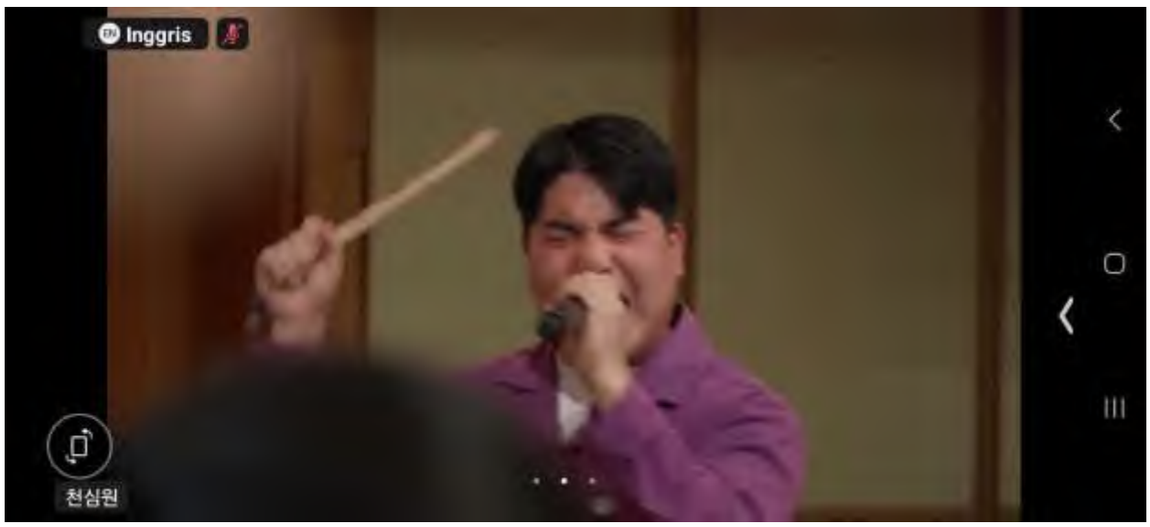

another: The reason I came was because my wife and I participated in the 10th 3-day Spirituality Workshop in July, and during that time in the Cheon Shim Won, I could feel that Heavenly Parent and True Parents had been Waiting for us, and I realized how much time I had spent without truly understanding what our Parents' Hopes Were.

My oldest son and daughter have been well connected to the church, but my youngest son has been avoiding it. I realized that rather than just telling him, I need to change myself first to have more right to instruct them. So, I came to start completely fresh, but the reality of True Mother's Trials and

Confinement and in times like these, if I could just be by Her in these short days, I changed my motive from just my son and joined the cheering squad of the Will, and the relationship of being with them are most memorable for me.

And this Place not just to hold onto the grace I receive, but how to live when returning to the field. And with Heavenly Parent not Giving up on us, I want that same resolve and achieve Victory to joyfully report as a tribal messiah.

Second, the Community Shimjeong Culture created by 2nd gen realms.

True Mother's Words: 'Because the first generation has (sacrificially) not lived well, our reliable 2nd generation who will take responsibility for our future is going well. It is something to be grateful for.'

A beautiful harmony between the 1st and 2nd generation realms that True Mother Spoke of is one of the most precious graces of the general 40-day Workshop that perfectly demonstrates the culture of heart of our faith community. In particular, at the Japanese 40-day Workshop, along with the Praise Team of our Vigil Devotion, the Cheering Squad for the Fight Song of the Will has been incredibly active.

testimony 1st gen trainee: There were many 2nd gen trainees who were the same age as my own sons and daughters who participated together. The Vigil Prayer Meetings, serving as the Praise Team, and the Cheering Squad, brought me such joy in transcendence of difference of 1st and 2nd generations.

Furthermore, I could feel that Heavenly Parent and True Parents were watching over us and rejoicing right along with us. Furthermore, as a venue for the community culture of shimjeong, the birthday party held and various talent show and games are a true venue to transcend generations, gender and age... Also celebrating birthdays, but also the unified desire to truly bring joy to Heavenly Parent and True Parents can truly be called the very homeland of culture of heart.

VIDEO - where we felt Heavenly Parent and True Parents rejoicing right along with us... as a venue for the community of hyojeong, the 1st and 2nd generation realms... (a lot of excitement, surprise, action, dancing, creative performances)

a 1st gen: Watching the performances of the 2nd and 3rd gen members, dancing to upbeat and popular K-

pop songs (shared with Heaven's excitement), it felt like they were pioneering (purification of) the era. It was so incredibly dynamic for us 1st gen members to share in, it felt like a birthday party that opened our old shells.

another... It was brilliant. They were truly shining so brightly and it really warmed my heart and brought me so much joy. Everyone was cheerfully calling, 'Look over here.' And we just laughed and laughed and laughed, and everyone's hearts became so united. (There was absolute Heaven's Will Connection, all under Heaven's Direction and Involvement). And the desire came so powerfully to all of us. We were all so happy together all with Desire to Transmit and Repay True Mother's Love... (in that Connected Realm of true happiness)

another... We were all so happy... because the 2nd gen were all so vibrant, we became one with the youthfulness as we practiced together. I genuinely felt I had become younger myself.

Desire to perform in this party was a heartfelt desire to celebrate my spiritual children. They invited me to join them, and I'm so glad I did (Her daughter is affirming happiness with all her mom is saying) It was so much fun working hard together, and my spiritual children were absolutely thrilled.

BREAK and BUSKING

Hoon Dok Hae

Educate by sharing the Words taking place at Cheon Shim Won. During... Your jeongseong must be so that True Father has no choice but to be Moved to Action. You must reflect on the profound standard of the 3-year shim myo jeongseong. Accordingly, Blessings are given only after we Fulfill our portion of responsibilities

Each of you has a portion of responsibility to Fulfill. Children who fail to do so fail to become close. Drops of water form streams that become rivers, but their ultimate destination is the ocean and there is no rest on the battlefield.

The moment you look away, your lives hang in the balance. I want to treat all of you well. However, I cannot simply overlook things. As a leader, I have a profound responsibility to Guide you to Fulfill your responsibility. That is True Love.

We are not living in the past. We must see the Completion of the Providence. We must dash forward without resting toward the day when Heavenly Parent is Attended globally in GIG. The world we live in today is a battlefield to reclaim this earthly planet, which Originally Belongs to Heavenly Parent (and needs to Substantially Manifest Honor to that Truth of Belonging)

You're working to proclaim Heavenly Parent's Holy Community by 2027. And My earnest Wish is for at least 1/3 of humanity to come to know Heavenly Parent. If that is the case, your current level of effort is simply not enough. Your jeongseong must reach Heaven so profoundly that Father has no choice, but to be Moved to Action. You must pray and offer devotion so intently that the SW is Moved to Mobilize.

From the time I met Father at a young age, I have never slept more than 3 hours a day. The life of a BF on earth is a period of Communion, maintaining Preparation for the Eternal World, you must undergo this communion training centered on Cheon Shim Won. Only then can you develop a deeper intimacy with the SW. You must speak boldly.

I am Giving you this time for your own sake. I Invest My absolute total Investment into Heavenly Parent and educate people sharing the Words taking place at Cheon Shim Won. This is no longer an Era where you can succeed just by being capable on your own. You must emphasize that when you work in total unity with the OBD, your character is elevated and you become prosperous.

You must let go of yourself and become completely one with True Parents from a zero position. When we were doing pioneer witnessing in 1957, Father only slept 2 hours a day. Father would gather all the members, and they would stay up bowing prostrate in prayer. Therefore, departing for a new world in 1956 I Spent...

"Therefore, departing for a new world in 1956, I spent (My entire Life investing Myself with AFAL and AO.)".
