Good morning

1680th Night Vigil of Tenshin-en

Summary of the Long Speech by the Chief Priest

Today, on the 1680th Night Vigil of Tenshin-en, when considering the fact that it takes 40 days to reach 42 days, I hope that everyone will feel how much the Heavenly Parents have worked and suffered. With the upcoming major event, 134,445 people are currently being accepted, and among them, the number of people who have been accepted to the Divine Japan has reached a record high of 88,000.

Father's words to the 3-day training participants of the "Kami Nippon Tenkyo" (Divine Heart Resonance): "It is not about dwelling on past glory, but what you have done in the present that is important. If you are a blessed family blessed by heaven and a heavenly child, you must continue to move forward. How many tears have the heavenly parents shed since the fall of humanity, and how much wisdom have they struggled with day by day to move forward? You must deeply empathize with their hearts. Why is Holy Mother Hanma's mother, who has been pushing herself to the limit, moving forward in her teachings? Is it

because she has no time to fulfill the will of heaven? Only the children who have inherited the heavenly heart can understand this.

Thank you for giving us great strength to perform the spiritual cleansing before starting the major duties. However, what you should do in the womb of the Mother is to completely inherit the Heavenly Heart and become one with it. Only by becoming one with the Heavenly Heart can we fully comprehend the Heavenly Will and understand the Mother's wishes. Please awaken from spiritual sleep, open your spiritual eyes, and move forward with your spiritual ears. The Heavenly Parents will be with us. We must always fulfill the promise of Heaven. And when taking the first step, we must sincerely and earnestly dedicate ourselves to the Heavenly Heart Garden. It is not just sincerity, but a sincere and earnest dedication to the point of urgency that allows us to move forward step by step with precision. We sincerely hope that all blessed families will unite with the Holy Mother, Han Man, and believe in Shinshin and Shinko, and move forward together.

8700 people who have completed the 3-day training of the Divine Spirit Japan have brought this Divine Spirit Garden teachings back to the field and are firmly connected to the church that will be rebuilt with divine spirits and truth.

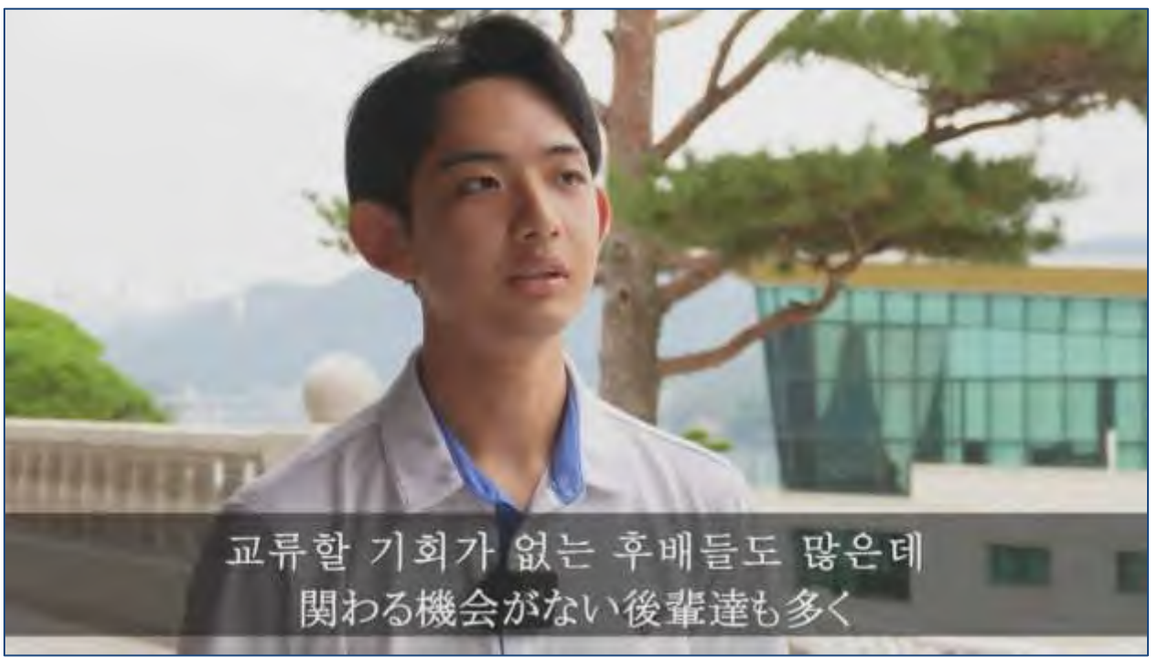

The 8th floor of Magnolia International Hospital has a special ward for the true parents, and the reception hall, which is the sacred place where the true father walked for the last 3 days on earth and entered the spiritual world, will be available for pilgrimage as a sacred place for the great leaders.

This is the HJ Celestial Universe Heaven and Earth Training Center, where individuals, families, nations, countries, worlds, and the universe can be reborn again after the fall of Adam and Eve. From today's

scripture reading, it is said that "if the Unification Church overcomes its trials, it can develop explosively. The world's youth can gather and receive education, and families can receive training and move forward in the world, and the world's people can be proud of this." We are witnessing the realization of these words. If we sincerely pray and let this sincerity reach the heavens, our spiritual level will be raised, and we can become one with the heavens. This is the principle of the Celestial Universe.

"There is a blessing after the responsibility is shared. Without fulfilling one's responsibility, a blessing cannot come. A child who does not fulfill their responsibility cannot come near. To fulfill one's responsibility is love. The level of each of you now is not enough. Your sincerity must reach the heavens, and you must not let your father's power be taken away." said the mother.

If we grasp this heavenly sincerity and fulfill the words spoken by the mother, then the individual and the church will be reborn, and a surprising role will be realized that departs with the divine spirit and truth. I pray that tonight, with such faith, we will make the time to devote ourselves to sincerity.
