OPENING PRAYER

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

We sincerely thank You for Allowing 1,681st Cheon Shim Won Devotion, and Calling us into the Boundless Love of our Mother.

In the chilly, blowing wind, we are feeling the approach of the Autumn and winter seasons that are finally wrapping up 2026. Welcoming the final Autumn CheonBo Special Great Works of 2026, looking back at this past year, we come to realize that it was a year where we advance victoriously with gratitude by becoming one with members all around the world through Cheon Shim Won Devotion amidst the various difficult circumstances of the past time.

There were many stories that were difficult to overcome alone. But, whenever we united our hearts and earnestly prayed in Cheon Shim Won, which is Father's Office and like Mother's Womb, we were able to gain new life again and the strength to advance vigorously. We sincerely thank You for this Great Grace.

Especially this GWs is a meaningful GWs welcoming its 80th time. Also, as October is the month of liberation and the month of fruition, please Word so that in Fulfilling Heavenly Parent's Ideal of Creation Dream, satanic spirit naturally surrenders before true love, making it an amazing, victorious Great, Great Works where the Fortune of Heaven is greatly (Revealed).

We believe that if all of us greatly experience that grace, with the deep Heart of HMH, and this Great Works held upon the Tower of 1,680th Devotion, it will become the GWs that bears the fruits of the Works of healing and recovery and the Blessing of all things. Especially, please Work so that today's Cheon Shim Won Devotion, just one day before the GWs is Completely Conveyed before Heaven to become a precious time that Establishes the Standard of Heart and Faith of us all.

In accepting our earnest Devotion, earnestly begging and Desiring that it be Offered as Devotion for our Beloved True Mother to be able to Return to CheonJung Gung as soon as possible.

Offering all these things, I pray in my name, Kim Guy yon, member of a BF in Grateful Attendance to Holy Mother Han... Aju.

TESTIMONY - NAKAZOWA ASUMI (sister) - 40-Day Moshim trainee - Coordinator in the Japanese Workshop Team

(bows and gratitude and greeting)

... belonging to the Songmun Church, youngest daughter of one son and 1 daughters of 360,000 Blessed Couple

Currently I am Coordinator in the Japanese Workshop Team, and I would like to testify about the days I have walked containing the Heart of Hyo Jeong

Mostly, my parents were busy taking on their respective roles in the church, while also working at their jobs. Especially my mother often came back late at night, due to church activities. When she could not prepare dinner, my grandfather would make simple food and take care of the family, or I would go to the market with my father and buy lunch boxes.

Also, because I grew up in an economically difficult environment, until I entered university, I had always worn clothes handed down, never new. I almost never paid school lunch fees and tuitions on time either. It was an environment that could never be called affluent, but rather than the difficult memories of not having enough to live on, the love that my parents always poured out and raised me with in my heart.

I have memories of me playing the keyboard with my father playing the base at church gatherings, forming a band and playing together with the church members, memories of going grocery shopping for dinner with my mother, (tears) such memories, the conversations and small memories of the time spent with my parents, are still deeply settled in my heart as a love that sustains me even now.

After that, following my older brother, I entered Sun Moon University. After I left my parents' side and

came to live in Korea, my older brother took care of me just like my parents. Once a month I would go out to eat with my older brother. Also, the person who bought me new clothes for the first time after I came to Korea, was my older brother.

While attending SMU, I attended 40-Day Workshop 3 times and was deeply impressed by the CheonBo Providence. And I was greatly moved by the sacrifice and boundless Love of True Parents. Above all what became a great turning point and trial in my life was my resolve to be victorious in the 430 generations of ancestor liberations and Blessing of the 8 lineages of our family, which had not yet been completed at the time, and established my parents as CheonBo Family.

In our house, there are various related things such as Church Pictures, Scriptures and Ornaments. However, there were times during the 3rd 40-Day Workshops when I resented my parents over the phone asking why they didn't do ancestor liberation and Blessing first? At that time my mother said, 'There have been a lot of problems in the meantime. I have lived putting my family on the back burner. But I haven't given up. We will definitely become a CheonBo Family.'

The moment I heard those words, I deeply repented and shed many tears in myself who had looked at my parents only through the standards of right and wrong without knowing any of their circumstances (tears). I had not known the heart of my parents who had lived sacrificing all this time. And I resolved that I would definitely register my parents as the CheonBo family that Heaven remembers.

The tears that flowed without stopping at that time, looking back now, were the tears my parents could not show to anyone (tears). And I think it was the moment in my life when I resonated with Heaven's Heart for the first time. After my resolve the liberation and restoration of my family began to have rapid speed.

During the university vacation period, I worked a part-time job while receiving room and board for two months. And even during the semester, I did various work studies and part time jobs in parallel. Excluding the necessary rooming expenses from the income gained that way, I gave the rest to my parents. While advancing with complete investment solely toward the resolve of the goal like this, Heaven Guided my career path, and through the Vice Director, led me to the TC. (tears)

Before walking the path of the coordinator, at the TC, in earnest I was also able to attend the 4th

Yeongseong Workshop that had Words for me that remain deeply engraved in my heart. Anyone can become a filial child before Heaven. The path who takes responsibility for lonely and difficult work is the path a filial child must go.' (tears) When I received these Words, I could feel Heaven's hope for me. That was exactly the path of the members who come visiting this Land of Chung Pyung that has comfort and encouragement.

Laying down my own thoughts and circumstances and resolving that I would invest solely in each and every member right before my eyes, I came to start as the Coordinator in the Japanese Workshop Team with an earnest heart... While working at the TC, the only one I could confess my torment and frailty that I couldn't tell anyone else (tears) was to my family, my parents and older brother, and through that I was able to endure countless times. Even in the situation where they had to go to work again a few hours later, after getting off work, after the Vigil ended... There were times when they listened to my stories for hours.

Amidst the days when I am being sustained by the devotion of members of my family like this, I came to realize the fact that the only one who truly took responsibility and Walked the Lonely and Difficult Path was True Mother. Even while carrying on a public mission, there are times when my heart becomes tormented and lonely without reason, times when I feel at a loss, not knowing if I must continue to live suffering through my 20s, the youngest and brightest period of my life, and where the path I am walking is.

Whenever (those thoughts) happened, I looked back at the Path True Mother Walked, prayed about what my Original Heart was, and sought an Answer (from Heaven). One day, I prayed in Cheon Shim Won, 'What does a filial son or filial daughter look like?'

And I was able to get that answer through HyoJN's song. It was the lyrics of the song that says,

'I am a fool.' People of the world may look at us like fools, but if I say, 'I will love only You forever, then if I am a fool, I want to live like a fool forever.'

It was a moment when I could feel that, 'No matter how lonely and arduous the Path is, my Original Heart Wants to Walk the Path of the Will Together with my parents, together with True Parents, until the end.

While advancing and offering public Devotion like that, the registration of my parents as a CheonBo family, which I set as a goal since my university days, was achieved early this year. (tears) big applause And my older brother and his wife also had their first 3rd generation... whaah big applause

However, 2026 became a turbulent year for me. (tears) In the process of advancing toward my own Blessing, I received scars and also fell down. For the sake of such healing, my mother Attended the Yeongseong 40-Day Workshop and prayed a lot for me. Thanking all of the people who prayed for me like that, I came to have a heart that I want to repay them through the fruits of that devotion so that their devotion is not in vain.

On one side of my heart I also thought I was no being rewarded. However, I came to repent to see that as nothing but a self-centered thought. Now I want to accept all of those environments as what is to be thankful for out loud, so that I can come closer to True Mother's Heart.

Recalling the days when I ran hotly toward Attending my parents as a CheonBo family in the past, now I want to bring joy to my parents through my own Blessing. And above all, I want to offer Joy to True Mother.

Also, I thank You for Guiding such a frail and lacking one such as me to this position and allowing me to advance toward the Will in the Yeongseong 3-day Workshop and the 40-day Workshop for the restart of H Japan. I will do my best where I am, and advance for H Japan. I sincerely thank Heavenly Parent and True Parents of HEH for Working through me, for Leading me. With this I will conclude my testimony... big applause

HJ PRAISE - HJ TRIO - 'WISH'

We sang in front of True Mother with these members, and at that time we were wearing the exact same clothing as what we are now wearing standing before you... applause Of course, the Cheonshim Robe would have been better, but at this time when we think deeply about our True Mother, let us offer this Praise...

VIDEO - highlight of 14th 3-day Resonance Prayer Workshop

'I have Attended Heaven in order to make the peaceful families throughout My Life. Even now, around the world, there are conflicts and war and fighting with blood, but still I Shout, 'Let us Attend Heaven.' Let all countries and nations become nations that attend Heaven, become brothers and sisters.'

In this Era where we can Attend Heavenly Parent and build the Heavenly Realm, I have been crying out loud to become One. I believe Heaven is Alive. Heaven will absolutely Fulfill its Dream on earth.

Centering on April of 2025, I have Created the Environment for Heavenly Parent to Fulfill Heavenly Parent's Dream. It is a truly grateful thing.

The (Ideal of Creation World of One Peaceful Family Under Heavenly Parent) that we Absolutely Believe is Desired by Heaven, until My Life ends, for that Purpose, for that Goal, wherever I am, I will keep pushing forward.

Before the trial, you must let go of yourself. As soon as you let go of yourself, wherever you are, whatever you are doing, it is an age where you can meet Heavenly Parent. That's what I was told to share.

Resonating with Heaven, once you overcome the trials, Heaven's Path will be open, and at the end of the trial, you will absolutely be victorious. This trial is difficult. However, we will eventually, we will absolutely be victorious. Once we overcome this, Heaven will be Opened. When the time comes, we will be Victorious.

Through this 3-day Workshop, through the miraculous Work of Heaven, new beginning in H Japan. Amazing Work will unfold where you will realize the SW. After you cling onto Heavenly Parent and begin to mobilize Heaven, you cannot help but to cry out to the SW. In that standard, once you mobilize and let Heaven Work, then amazing Blessing will be bestowed upon H Japan, new beginning will unfold.

As you become one with Mother... if the Mother nation can become Mother's greatest Foundation, H unified Korea will absolutely be Fulfilled!

Mother, we truly miss You. Although we still have a difficult Path ahead of us, we will never waver. We will become one with You. Just as You have Walked with gratitude and joy, we will walk the same Path as You. applause

MASHATA TOSHUO san - 3-Day H Japan Resonance Prayer Workshop trainee

translated from Japanese

(bows and gratitude and greetings)

... This Place is truly a Hometown full of true love, where Heavenly Parent Loves us as children exactly as we are. From the time of registration, seeing the bright smiles of the staff, I realized that the parent's love I had earnestly been waiting for over a long time is here to the point that my tears would not stop.

Every day I ran around busily to pastor the members who were hurt by the dissolution. And although I myself had been reviving and saying I love them together with Heavenly Parent, before I knew it, that had changed into a formality. And I discovered myself exhausted.

For this 3-day Workshop there was also the pretext of bringing the members, but I came to participate with the mindset that I myself wanted to receive the love of Heavenly Parent and True Parents again and make a new start.

As soon as I arrived and entered Cheon Shim Won (tears), I could hear True Father's Voice Saying, 'You came well.' And I could feel True Father's Love for me just as I am. Right after arriving, I was able to receive True Father's Love.

One more thing True Father told me, 'This time you must know True Mother's Heart'.

Receiving these Words, I immediately wrote that Content on the HJ Offering Paper and with Lecturer Ana Ishi and Yokoishi's Lecture, I came to know True Mother's Earnest Heart. (tears) (appreciate so

much his honest vulnerability as a man truly centered on Heavenly Parent and True Parents and for the sake of loving and helping the members)

I realized that Mother's Earnest Heart is Thinking of the children, not about the matters right in front of Her Eyes, but leaving those behind. It is the Love for all the BFs and about saving the pure waters, and She doesn't care about saving Face, and She's even Willing to Lay Down Her Life. I realized that I had been Receiving this very Love even to the present moment.

Looking back, before coming here I had been exhausted after the dissolution and could not completely invest myself. However, I realized that I too like Mother must grow into a person who can recover the pure water, and no, not just that, but even recover the true children who are the deep sorrow in Mother's Heart.

I received the grace of being graced anew, and I must put my life for that

I realized that Heaven's Grace did not stop here but extended even to the church members. Before coming here to this 3-day Workshop, every day at the church, the entire church was offering calling out name prayer and offering 1,000 times a day for a member, Okakowa Yasuka who is battling stage 4 pancreatic cancer.

Coming to this 3-Day Workshop and in the calling out prayer, I ended up in the same group as that member's spiritual parent. While looking at the paper where everyone wrote their wish for what they wanted to be prayed for, I was surprised to see the content to please pray for the member, Miss. Okakowa to be healed, but I learned the one who wrote that was his spiritual parent, and she felt the love of her spiritual parent of the Isihara Church on a regular basis.

Even during a life of battling cancer, she said, 'If it had not been for my spiritual parent, I would not have been able to gain this much (spiritual and physical) strength. And even in a difficult situation, she thinks he earnestly prepares a way for meals for her family, and he is earnestly Attending this Vigil Devotion. So, I wanted to meet him at least one time, but I never imagined it would be during this Workshop being in the same group, and I felt this as Heavenly Parent's Direct Guidance.

(tears) When I prayed to Heaven for her cancer to be healed, resonance with Heavenly Parent's and True

Parents's Heart for Heavenly Parent's children, and I heard, 'It's okay. This cancer will definitely be healed.' and afterward I embraced the spiritual parents, 'It's okay. Heaven is with us. She will be healed.'

Through this 3-day Workshop, I was able to have the conviction that Heavenly Parent truly is with us, and as long as I am pure, I could realize this deeply in my heart.

Before coming, I was exhausted but realizing Heaven's Love and Mother's Love, and I will invest with my life on the line to recover Mother's children, and I hope this can be a hope and strength for True Mother. And he loudly shouts his love and thanks for Heavenly Parent and True Parents... applause for his victory

HJ REPORT - Union President of Jojeongtown, Anho yol

(bows and greetings)

It's been 5 years since being in Jojeongtown, about 1,200 days, staying in Room #104... and there are people in the long-term and short-term and no-term Workshop, but nowadays... and I call it patient with sickness, sever sickness or without sickness.

Hoon Dok Hae

It is Spirit and Truth. You must offer much Cheon Shim Won Prayer and Devotion. " You must become one with the OBD, True Mother, and put down roots deeper than the olive trees. I am establishing Cheon Shim Won Branches in each Continent. There are Branches in Japan, America, Asia, Europe, Africa and Central and South America, but they must be increased more...

BFs and members must Fulfill your responsibilities regarding the past, present and future at this time,

living together with True Parents. You must Fulfill your responsibilities on earth. You must do your ancestor liberation while you are on earth. Only then will the SW be liberated. H Providence puts the earth first. Only when the earth settles its 4th position first can the SW also settle its position.

Around 1957, Father Prayed at any time for about 400 members. These days, I try not to Pray for them. However, in order to cross over a certain limit point, I have to pray for them. So, if I pray for knowing what their spiritual state is in, it is revealed.

If you come to pray because the members related to you are definitely like branches, God Teaches you. Try Offering Devotion. If you Offer Devotion for the sake of the members, because their spiritual state becomes damaged, they are shown in all kinds of appearances. There is an appearance with the head shown bowed down. There is an appearance of wearing a wrapping cloth. They are shown in various ways.

A member who has something to feel good about is already seen with a smiling appearance. Also, for a sad thing, it is like that too. There must be a time of Offering Devotion. When waking up at dawn, because there is a border line where the optic nerve rests and wakes up, it is definitely shown. Seeing that, you must know, 'Oh, there will be some matter at church today.' This kind of member will come today.

A competent doctor knows what kind of disease a patient has just by looking at their complexion. He knows just by looking at how they walk. Just like that, you too, must have a high spiritual antenna, and have the ability to appraise. So, you must offer devotion. Prayer is a truly fearsome thing.

Completely occupying the environment without words is prayer. Wherever Father goes, centering on His Goal, He Prays 24 hours a day. Even while eating, even while breathing, I pray. It is not for myself. It is for humanity and for God. Centering on such singular mind, if you made a circle around all 4 directions, it achieves an equilibrium and becomes a circle.

As I go out and pray, it becomes a realm that Heaven can preside over. Conscientious figures within this realm are drawn in. If they meet, they are drawn in without even knowing it themselves. Therefore, you must always offer devotion. Aju.
