1681st Night Vigil of the Heavenly Garden

Statement by the Director of the Training Department: The person who fulfilled the father's only word, "I must undergo 40 days of training three times." Deeply impressed by the Heavenly Garden's principles, he deeply felt the reality of families in Japan who could not perform ancestral blessing due to the lack of ancestral blessing for their family, and while studying at university, he worked part-time and devoted himself purely to the training department, ultimately achieving ancestral blessing and becoming a Heavenly Garden family. He is dedicated to the training department as the Director of Training, devoting his pure passion and dedication to the Japanese training team. I believe that the purity that resonates with Heaven is the most important for future leaders.

It was an emotional 14th Spiritual 3-Day Training Session, but if we bring this passion for prayer back to the field and connect it, a surprising role will arise in God Japan. As the saying goes, "The period of trial and suffering allows us to feel how much God loves us," and if we pray more earnestly in God Japan,

which is undergoing a period of hardship, we should be able to reap great rewards.

Testimony of the President of the Iwakuni Family Church: After attending the 3-day retreat, I was moved to the point of saying, "This is the true love-filled land of Honjo," and as I entered the temple, I heard my father's voice saying, "You've come well, Mother, I need to know your heartfelt feelings." Having a time of resonance with my mother, I decided to give my all to find a blessed family and pure water, and to give my life if necessary. I testified by offering 1,000 name prayers for the oral stage of pancreatic cancer. If all pastors pray with tears and put into practice the path of true parent care, there will be a great blessing from God in Japan.

Message from President Kuboki: "The path that God Japan has walked so far has been a path written with blood, sweat, and tears. When the true parents of Japan were ordered to fight against the communist bloc, there were those who gave up and those who held on. Even when the communist bloc dominated, it was not surprising that we fought with our minds and efforts as weapons and shields. As a result, we were able to leave a legacy of victory in the history of the unified family.

Every day, amidst many temptations, I have unconditionally believed in the path that the true parents of Japan have pursued. How can I compare this to that time? In the 14 years of the Heavenly Father's rule, the Holy Mother is on earth, and the Father is operating through the Heavenly Heart. We live in a world where we are blessed with the grace and blessings of the Heavenly Father. If I pray sincerely, I can surely feel the love and feelings of the Heavenly Father. What we need is the faith that the Heavenly Father will work together with us from the very beginning, and the perseverance and effort to grasp only the Heavenly Father in the midst of trials and adversities. And the unchanging burning true love. When we love, we often feel heartache, but as long as we love, we will surely overcome. The Heavenly Father is

the one who works in true love, so as long as we move forward without losing true love, we will surely win.

The Heavenly Father and the true parents of heaven and earth have come to testify to this, and we have come to believe in them. I sincerely feel that all of you have experienced this in the past three days. I am deeply grateful that the Holy Mother and Han have conveyed their love and efforts. The spiritual world knows every step of the true parents' efforts in practicing true love. I sincerely hope that the Heavenly Father, who works with us, will continue to move forward without changing. I am grateful from the bottom of my heart. I love you."

I pray today with the conviction that a miraculous role player, with new determination and resolve, will appear, and that we will see things we have never seen before.
