good morning

I hope you are in good health.

Chapter 1682: A Night of Sincere Devotion at Tianxin Garden

Summary of the message from Director Lee Ki-seong

Tenshin-en is a headquarters of sincerity, a great gift and hope that gives us the key to life and solving problems. The Great Work began in June 2004 for the inheritance of heavenly fortune and the fulfillment of wishes. In the past, we have prayed not for ourselves but for God's will and providence, but the Special Great Work for the fulfillment of wishes means that if we dedicate ourselves sincerely based on the foundation of the heavenly world, our wishes will be heard. Therefore, when we pray specifically, we can receive answers. Because this is a Great Work that mobilizes all the foundations that Heavenly Parents have triumphed over, a relative standard must be established on earth as well. That is why True Mother asked all blessed families to register for the Great Work four times a year and receive heavenly fortune. Father's wish, who has gone to the spirit world, is for us to become one with True Parents on earth.

Last year's autumn service saw an unprecedented 120,000 participants, and this year's service saw 151,068 registrations. Even under difficult circumstances in Japan, a new record of 88,159 registrations were achieved. We believe that these astonishing victories are the work of our living Heavenly Parents.

This time, in commemoration of the 55th anniversary of the CheonBo Service, it will be the 80th major service, and amazing blessings are expected. Among them, the most beneficial and important event is the Heavenly Fortune Inheritance Filial Piety Dedication Ceremony, and the Filial Piety Dedication Letter is like a letter sent to the spirit world. It has the benefit of purifying the body and spirit, and concretely resolving my wishes. The Filial Piety Dedication Letter allows ancestors who have gone to the spirit world to cleanse themselves of the shameful sins they committed on earth, and to stand in a position to help people on earth to their heart's content. The blessings of the small Filial Piety Dedication Letter we write will reach the spirit world, and we will receive blessings as if our ancestors had written it together with us.

The completion of Cheon Il Guk will be achieved when we complete the life of Mosim. For the sake of the world and the universe, who has achieved victory in the life of Mosim more than anyone else? It is Holy Mother Han, True Mother. Therefore, the secret to our success is to serve with a mother's heart. If God's Japan, the mother nation, rises up for the world with a mother's heart, a miraculous victory will be achieved.

Mother said that even if something appears difficult to human eyes, from the perspective of faith, God's will is prepared within it, and a new path is opened. Devotion is necessary to accomplish what has been prepared. We must pray and dedicate ourselves to fulfilling the commandment to forgive, love, and become one. We must move forward without interruption, without lamenting, fearing, or worrying, and proudly bear witness to True Parents. To that end, we must work even harder to perform our devotion at Cheon Shim Won. Mother said that if we pray at Cheon Shim Won, which is Father's office, it will surely be accomplished. No matter how difficult it is, we must pray with absolute hope and know that God's time is approaching. Everything is based on devotion. For seven years after founding the church, Father dedicated himself until 3 or 4 in the morning, sowing the seeds of devotion until it was approved by Heaven.

Mother's words: "We must dedicate ourselves wholeheartedly to ensuring the spirit world is ready to act. Life in blessed families on earth is a period of exchange training to prepare for the eternal world. We must conduct this exchange training centered around Cheonsimwon. By doing so, we will be able to develop a close connection with the spirit world. We must speak strongly. I am giving you time. I am fully committed to welcoming Heavenly Parents."

Only by undergoing exchange training on earth and living a life that promotes the progressive development toward the unification of the subjective heavenly world and the objective earthly world can one enter the Kingdom of Heaven. By undergoing exchange training on earth, meeting Father, and living a life of prayer and sincerity, we can become citizens of Cheon Il Guk by living like the spirits who lived on earth.

Furthermore, there is a teaching that the secret to receiving the blessings of all things is to never forget the help we have received before Heaven, and to live a life in which we strive to repay those kindnesses hundreds or thousands of times over. If we consider the devotion we have made in the past for God's will not be something to be forgotten, but rather as a gift offered by Heaven to bestow blessings upon us, our families, clans, and nation, and if we grasp the sacred candle of the Tree of All Things today, pray, and dedicate ourselves wholeheartedly, then all the wonderful works of Heaven will surely be accomplished together.
