Good morning

I hope you're doing well

1683rd Tenshin-en Tetsuyo Seisho

Summary of the speech by the head of Tenshin-en

This autumn's major event was a great victory with 151,817 people attending. At Tenshin-en, spiritual practitioners, including Moshi Shuun, are praying like a war without taking a break on weekends. Tonight, they will carry on this spirit and start anew with a fresh mindset, which will bring great blessings.

The title of that prayer is "Pure Water Spiritual Training Special Devotion." The true mother says to the second generation, "You are my direct descendants. The second generation can resonate with the Heavenly Parents as soon as they remove the wounds and dirt they have acquired in their fallen environment. That is why they call them Pure Water. Wherever they go, they have the power to purify,

and their spiritual atmosphere changes. Pure Water must move and flow in order not to rot. A single drop of water becomes a stream, a river, and its destination is the sea." Therefore, the second generation who have received spiritual training must gather together, praise together, and offer devotion and devotion.

The message from heaven that Pure Water received: "If you lack courage from everyone, the Father of heaven will grant you the courage, and if you lack love, the infinite love will be granted. You are not alone, but always with heaven. Pure Water should not stay in one place. It will grow bigger and bigger as you move forward. Even if there are trials and dry deserts along the way, if you move forward with faith that the Father of heaven is with you, you will become an oasis in the desert and a beautiful waterfall. Therefore, I pray that you will become one with the brothers and sisters around you with true love and move forward together with the Heavenly Love, Shukujouko."

However, the path to becoming a pure water is not an easy one. The moment you decide, temptation and trials come, so you must do your best. Like the father who, before praying to the Heavenly Father, must first perfect his own self-control, you must walk the path of perseverance. If you grasp the Heavenly Heart by becoming one with the Heavenly Mind, as your father did, you will reach the state where shivers run down your spine at the intensity of that passionate emotion. If you become such a pure water, through them, Heaven will bestow abilities and power upon you, and you will perform a miraculous feat.

After the passing of her father, the mother said, "The most necessary thing for us now is to return to the spirit of the Unification Church's early days. The Unification Church originally started with the spirit of God and truth. Looking at its current state, it is impossible to see that its members have developed emotionally. Let's return to its early days. For that, the light in the church must not be extinguished.

Living out the practice is necessary." She emphasized the spirit of God and truth through the Tenjin-en Seisei.

By establishing a firm faith through the Tenjin-en Seisei, and moving forward together with the mother, a true spiritual worker will be formed here, like a fire of the true spirit.
