OPENING PRAYER OF GRATITUDE:

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEY

We TY that we can gather in this Holy Place of this 1,684th Cheon Shim Won Vigil Devotion, laying down all the worries and busyness of the world to look only toward Heaven, enjoined together with Hearts of Gratitude and hyojeong, our filial heart.

Most Noble Heavenly Parent, we Offer our Gratitude and Congratulations for all the Victories of the October 2026 Autumn Great Works. We sincerely thank You for watching over every moment of these past GWs and for Receiving all the prayers, devotions and tears of the brothers and sisters who gathered from all over the world.

In particular we engrave in our hearts the immense grace and Blessings Granted through the Tree of All Things Transmittance Ceremony. We desperately hope and pray that by next year's Autumn GWs we will be able to Offer the actual results of that sincere Devotion.

Please Guide us so that the Light of the Tree of All Things Holy Candle we have Received may spread beyond the Cheon Shim Won to reach every corner of the world. Whenever we Light the Holy Candle at our Churches and Places of Devotion, please Work so that a new Flame of Spiritual Revival may Rise.

Heavenly Parent, Please Work so that the Faith of our brothers and sisters may be renewed, and the Doors

to Witnessing may be thrown wide open. Furthermore, please Work so that the Heavenly Fortune for the Blessing of All Things, the Multiplication of Children and Witnessing Granted by Heavenly Parent may Powerfully Flow into Every Family and Church and frontline Mission Field, Allowing the Grace we Received to Manifest as an even more Abundant Harvest.

Please also remember the Victory Prayers we Offered for the Students of College Exams and for those that seek Employment as well, and for the Calling Out Prayers to Continue. Please Grant Wisdom and Boldness to all of the children doing their absolute best to prepare for their futures. Please Guide them so that the sweat and effort they have shed thus far may lead to beautiful Fruits, Allowing them to Find and Fulfill the most beautiful Dreams that Heaven has for them.

Most Noble Heavenly Parent, though the Autumns GWs have concluded, our jeongseong continues. Please Guide us so that we do not merely keep the Grace Received from GWs as a fleeting Emotion in our Heart but instead sharing that with our families, friend and neighbors (in Your Wisdom as You would have us do for each of them).

Please Joyfully Accept the Prayers and Praise and all the Devotion we Offer this Night. And please pour Heaven's Immense Love and Grace upon all the brothers and sisters, uniting their hearts from around the world, and on every pair of hands toiling in unseen Places.

Hoping that tonight's Prayer becomes tomorrow's Action, and that today's Gratitude becomes a Greater Love, and that the Devotion becomes the Cornerstone to Fulfill Heaven's Will, and especially desperately Praying and Longing for the Enduring Health, Longevity and Acquittal and Release of Holy Mother Han, True Mother, I Report and Offer all these words in Gratitude in my name, Chun Yu san of a BF in Attendance to HMH. Korean 40-Day Workshop

(bows and gratitude to Heavenly Parent and True Parents and I love You)

eldest daughter of 1 son and 2 daughters of Somba Church

I am the 2nd generation of a 2025 Blessing... I am currently pregnant and attending the Korean 40-day Workshop. With this Workshop, I went on a Pilgrimage to Cheon Jung Gung, and I will read the Words I drew in the Prayer Room:

'You must not forget that your ancestors in the SW will be with you and your life must be one that keeps pace with the SW. It means that you should become spiritual people who achieve perfection, living a life of communicating with the Spiritual World through jeonseong.' Aju

It was precious Message telling me that, in order to give birth to a child of Heavenly Parent and True Parents of HEH, I must Attend HMH, Offer even more Devotion and unite with the SW. During the spiritual Prayer Session and Lectures, I heard that Heavenly Parent had been waiting for children for 6,000 years. My heart was deeply moved that there was not a single moment for 6,000 years that Heaven did not believe in us.

Before getting pregnant with my current child, I had a miscarriage. Until now, because I thought I was lacking and did not have a healthy womb, I was afraid something would go wrong again. My prenatal baby's name was Boji, and I was afraid that Boji would leave me again. I couldn't fully believe in my child. However, after hearing the words of the lecture, I gained the thought from Heavenly Parent that, 'This child is strong and will absolutely return to my arms.'

Also, during the True Parents's Theory Session, I learned the Essence of Pure Water, becoming one with HMH, making Her Will, Heart, Thoughts and Purpose the same as mine, speaking with one voice with HMH and raising the same Voice.

Last year, Called by Father, I Attended the 15th Spirituality Workshop and with 600 others there, I Offered Devotion at CheonJung Gung and Welcomed True Mother into my heart. Now, I want to resonate even more deeply with HMH, become a parent and raise my child and deeply understand True Parents's Hearts. In my daily life, I want to become one with HMH, Attend Her and Live together with Her for eternity.

There was a time during my school years when I was an inactive member, but even then, there was a moment when True Parents came to my mind and I cried my eyes out, saying, 'I cannot leave True Parents'. My Longing for Them and my Love for Them were strongly Connected. That is the taste of True Love.

No matter how far we stray from our Parents, as long as we are children of Heavenly Parent, and as long as their are Parents Who Believe in us and wait for us until the very end, I feel that all of humanity has no choice but to Return to True Parents, even if the timing for that is different for each person. I deeply feel that Heavenly Heart, and just like True Parents, I have no choice but to absolutely believe in, love and embrace the child in my womb from beginning to end.

My husband and I caught 14 cherry blossom petals on our way to the water of life of the spring, and that is how we decided on the prenatal name, 'Boji' which means cherry, the fruit of the cherry blossom tree. Before conceiving Boji, the Director of the Ansu Room, told us that, if we went to Commando and prayed with tears morning, noon and night, in front of the sea horse painting at the Ocean Cheonwon Gung, our wish would be Granted.

So, after our Wedding Reception, we went to Commando for 3 days and 2 nights and prayed desperately, and truly Boji was conceived. Also, after hearing the Director of the Hyo Jeong Traditional Farm say that, 'Even those who experienced infertility could become pregnant if they drank the hyojeong water, i earnestly drank it. Furthermore, before conceiving I completed the Moshim Workshop. I received the Blessing through my Devotion at Cheon Shim Won, and while trying to conceive I went to Cheon Shim Won every day to Offer my 40-day Devotion.

By Praying to Heavenly Parent every day, my wish truly came true. Even before the 40 days of condition was over, I Conceived Boji. Many people congratulated us, and the trainees of the 7th Moshim Workshop had been giving the baby a nickname 'the First Moshim Baby'. Now, as I Attend this 40-Day Workshop

every day, I draw the Water of Life and come up the Tree of Hyo Jeong and walk Mother's Trail as I Visit the Holy Grounds.

After hearing the Testimony from the family of the Cheon Shim Won Director that their child became healthy after climbing to the Tree of Hyo Jeong, I am carefully making my way up there, even though the Path is steep, because True Mother Said that we become healthy when we go to the Tree of Hyo Jeong, and it Feels even more Grace-filled, and I Feel True Love while drinking the Water of Life. I heard that, if you Pray to Heavenly Parent before drinking, Heaven will be with you, so I always Pray before I drink.

I have truly been waiting for the Pregnant Women's 40-Day Workshop. There are times when I'm tired, but this time, receiving the True Love every day of True Parents of HEH is so incredibly precious. And at this time when True Mother is Walking a Path of Hardship, together with the child in my womb, I am communicating with the spiritual world every day through Devotion and Prayer for True Mother to Return in Glory to Cheonjung Gung.

Even at this moment, I hope that the children who have left Heavenly Parent and True Parents will turn their hearts around even a day sooner so that they will welcome True Mother with a smile when She returns. For their sake so that they won't regret it, just as I could not forget the taste of True Love, I want to shout out to them to return to the Embrace of True Parents. I want to share this True Love, this Happiness, this Warm Embrace with them.

Centering on Heavenly Parent, I am preparing to become a parent to this child to deeply love with my beloved subject partner husband. With this desire rising up, I feel the Heart of Heavenly Parent so desperately, Who so Gratefully and Full of Love Gave Unceasing Effort with Devotion and Love to Raise Us. They Believed in someone as lacking as me to the very end, and even when I lost my first child at 7 weeks, They told me that there is a Will in everything and that Heaven will give me another child.

I feel an indescribable sense of awe to Heavenly Parent. I will safely give birth to and raise this precious child of Heavenly Parent beautifully, so that Heavenly Parent's Love can be passed down from Generation to Generation for ten thousand Generations. I will learn the words for Responsible and Truthful Communication as necessary.

What I will always emphasize is that we must become one. If there is a stumbling block on the Path to a

Unified World, we must Reveal the Truth through Communication. I Offer Gratitude to Heavenly Parent and True Parents for Giving us an Environment where we have no choice but to safely give birth to sons and daughters, become true parents ourselves, and live as Blessed Families that solely Attend HMH, and live a Life of Holy Communication.

We who are able to live during this Golden Age when Mother is Alive on earth, are truly the ones who have received Heavenly Fortune just as True Parents did. I will step forward with Devotion and Prayer, and Communicate even more deeply with the Spiritual World during this 40-Day Period, and by doing so, I will Attend True Parents of HEH and Live Together with Them for Eternity.

I am truly so happy that I can Attend True Parents, become One with my beloved Subject Partner, Ki Bom Chol, and Live as a Blessed Family. I want to live happily every single day and become a child who returns Joy to True Parents. No matter what happens, I know that by Loving True Parents and Communicating with Them all the time, keeping Them at the Center and remaining in the lowest position, we can overcome any trial.

Thank You True Parents of HEH for Giving Your Love so that Bonji can grow healthy in my womb. I Love You (She makes a sweet smile and a heart over her head) big, big applause

I came to the Workshop to deepen my understanding of True Mother and further grow my faith... I had been going through a dark and difficult time for a long time... For several years, my body and mind had been slowly breaking down and it got worse, especially after my 2nd son was born. I have suffered for a long time from a herniated disc (and other conditions).

287th General 40-day Workshop... At this time when True Mother has (conditional) release on bail, and the Providence is moving little by little, I would like to begin today's Hyo Jeong Report hoping to send Mother more strength with the earnest wishes of all our International brothers and sisters around the world.

First, let's do HD together:

'To those who want to see the Homeland, who want to go there, who want to live there and long for it, we must lift their spirits and raise their moral even more so that, no matter how often they see it, they want to see it forever and live there.

If you cannot stand in the position of treating all humankind on God's Behalf, you're not a person of the Homeland, you're not a person of the Homeland, you must know this clearly. To the foreigners who have come because they long so much to see it, you must have the heart to welcome them with Joy, whether for one day, two days or even a year and live with them forehead to forehead. Aju '

Through this GWs, a lot of our brothers and sisters from around the world have gathered here at this TC and truly felt how... We saw how one family truly shines together in Joy like this, close enough to touch.

Brothers and sisters meeting again after so long and embrace each other.

How was your GWs. At this time, why don't we have a time to greet brothers and sisters around us. I think it's good if we shake hands and... Hello everyone... Nice to meet you all... Thank you for coming... I can feel that the atmosphere of GWs is Connected.

These are the Attendance Records for the participants of GWs. We can see that they came from the United States and from all around the world.

BREAK and BUSKING

Hoon Dok Hae

Today's humanity does not have unfallen True Parents. I have Personally Achieved a Victory in the Spiritual World. To reach that Point, as I was battered by the harsh winds of this world, I cannot even count tens of billions of times I resolved that I must not die (before making the Victory).

At every critical juncture when I faced the enemy, I Told Myself I Must Not Collapse, I Cannot Die. If I Die, Who Will Establish this Will. No matter how much I Must Suffer, Even If My Limbs Are Torn from Me, and I'm Left ridden as a cripple, I Absolutely Must Not Die. I Cannot Tell you how many times I Would Pledge This Deeply in My Heart. This is how I have Walked this Incredibly Difficult Path until now, Knowing that in these Last Days, I have to Establish the #40 to Overcome the 4,000 years of history since Abraham Established the Standard of Restoration, I Eagerly Waited and Counted the Days for that #40 to Pass.

More than anything that was my Deepest Long-Cherished Desire, Standing Entirely Alone before the Cosmos, Struggling Desperately Just to Survive and Fulfill My Portion of Responsibility. I have made it to this day. What is broken must be Repaired back to its Original State. We Long For the world to become a new world and the nation and people a new Nation and new People, for every person to become a new Person, the son a new Son and the daughter a new Daughter.

Therefore, since Jesus came as the new Son, there absolutely had to be a new Daughter as well. However, Walking on the Path to Finding a New Daughter, Jesus Passed Away (from earth). Jesus' Yearning to Establish (His Foundation For Her and Find Her) that One Mother Who Was the Hope of the Universe, (Jesus' Mission Course of 1st and 2nd Coming) was an unimaginably Difficult Course of Persecution and Suffering from one village to another, Jesus was a Tragic Figure Who Suffered Relentless Persecution.

Jesus had Tried to Establish the Will Centered on what was Established with the Tribe of David. And when he could not Fulfill that Will within the family, he had to leave his home and Walk the 3-Year Path

of a Public Ministry.

Right now, you cannot see God's Face. Because you have never seen God's Face, it is like you are still living inside the Womb. This is the tragic reality of humanity today. Therefore, the Providence of Spiritual Salvation was Completed, and you were Spiritually Reborn, but that alone is not enough. You must be Reborn both Spiritually and Physically at the exact time in the future when the Lord is Coming Again. And that Lord Will Come as 'True Parents'.

That Lord is Coming as the Father (Bridegroom for the God Mother Bride in the Flesh) Father and Mother of Humanity in the Flesh. He Finds His Bride among human beings who also have physical bodies. Only then, can they in the physical world who have fallen finally Find the Physical True Parents Who have not fallen. Because the physical and spiritual Eve and Adam lost their Purpose to Become the True Parents, this is why today's human beings have fallen parents, because we have never had unfallen True Parents.

Therefore, the Lord of the Second Advent is the One Who Comes through the Providence of Restoration in the Flesh in order to Complete the Mission of True Parents, Becomes those Parents in the Flesh (of Direct God Image Male and Female) Who have not fallen, in order to Complete the Mission of True Parents Coming with historical Truth upon the Foundation of Jesus' Spiritual Foundation of only Spiritual Salvation, to Fully Complete what was left unfinished, the Birth of Sons and Daughters who are fully Perfected in both Spirit and Body. PRESIDENT LEE GI-SEONG'S MESSAGE

Hello everyone (a quick bow) to this 1,684th Devotion. TY for joining. I'm truly grateful to see you.

Marking the 399th day of Mother's trial and harsh difficulties, at his Vigil, those Branch Leaders who are managing the fields around the world are participating, and I'm so grateful we can offer devotion together.

Internationally 37,013 people registered for this GWs

H Japan Cheon Shim Won President 88,145 registered I Bon Sok

Cheon Shim Won President H USA Doo Seong yeon, I truly believe he can lead a new start for them to Fulfill their responsibility as the Elder Son Nation...

In the future, I truly hope H Korea can give the results going over 30,000 people

We heard the testimony of sister HONG YU MI... (She became a little distant but could not forget True Parents and the taste of True Love and still the Longing for Them) (She had the miscarriage and lost confidence but went to WSs and had amazing experience of grace with a 2nd pregnancy and deepened relationship of True Love with HMH True Parents)

She went to the Moshim Workshop. During her school days, she was dormant. She had a time to really repent with tears and resonate deeply with the heart of Heaven. Looking back at the dormant times, regretting why she did that. Those who experience the spiritual world say that, when we go to the SW, at that moment, all the time of our lives here in the physical world will flash back before our eyes.

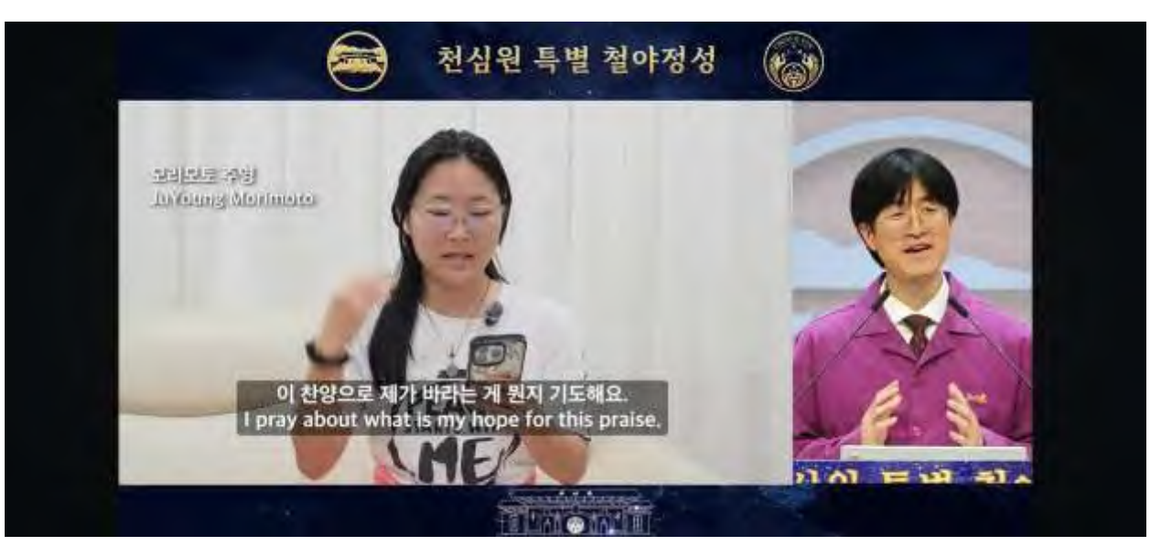

But the moment they see that they didn't do anything for the Providence, they want to go back and live for the Providence. So many have this experience. It is actually a period of death, a meaningless life that has nothing to do with the Providence. It is the same as death, that meaningless time could be a time of accusation.

If we lived as a Blessed Family or as a 2nd or 3rd generation, in the SW, they may say, 'How could you live like that?' (not Attending the Providence with True Parents). Those who are responsible, if we live a meaningless life, the entire period of your life could be accused. If we know that fact, how many Achievements.

For me as well. When I look at my past, as a pioneer church leader, I have so things... the more that you have not Fulfilled, you can be embarrassed and be in a position of accusation... When you think about that, every day of our life in the PW, we should never live a meaningless life.

Eternally, we might be in a position to shed tears in embarrassment. So, to prevent that I truly hope that we live every day to the fullest. In that sense, the previous H Japan Cheon Shim Won President Tsujingte, it might have been difficult for him to go to Bukmyeon, a place where only 3,500 people are living. Some people would say, 'Who do you think I am? putting me in this position?' However, he said, 'Thank you'. And he is doing so many works there, and we are able to see miraculous works unfold.

A person that came to the Sunday Service, went to the Memorial site and saw a Vision with their spiritual eyes, where all of the soldiers were resolved (healed), were liberated and Blessed and became AGSs.

Looking at the members, they were saluting to the brothers and sisters with their hands.

That Place became a Holy Land where you could shed tears naturally. It was in the frontier where this Korean Peninsula should be the Holy Land where all of the people from around the world would want to be here and love this Place. This Korean Peninsula, the value will rise up. You need to buy some land. In the future, it will be a Place where all of the people around the world will want to come and live through their retirement, and Offer Devotion here in this Korea.

When we think about these things, we need to realize this Gapyeong and this Bukmyeon is a precious land and Jeongmuli where the 38th Parallel was, there is precious land, hallelujah. Also, Puncheon and Yangpyeong are precious.

When we expand and expand, the entire Korean Peninsula, when we look from the perspective of the Great Epic, it has the committed Devotion that has accumulated for the Advent of True Parents of HEH, when we Offer such Devotion, our Spirituality can grow... when we realize that we need to testify for that. In the future, it will be a Place where people will swarm to from all around the world. Aju? (Aju)

Thinking about that day nearing, we need to Offer Devotion. True Father in Pomnikor, when Chairman Kim Wom Pil was drawing the portraits and selling them and raising funds through that, it was a time when True Father saw the Vision that all people from around the world will come to this Korean Peninsula to find the peace. And all of the Achievements of True Father during His Mountain. We cannot memorize all of them.

President Kim Chin chun of Cheonpuhov sometimes shared powerfully about how many Achievements were Fulfilled. Aju. Aju. When we look at the Life our True Parents, in the SW, the Life Course of True Parents will be Lectured and the Great Epic will be Lectured, and all will cry and Praise Holy Mother Han. When we look at these things happening, when we go to the SW, when we cry... For us to not have regret in the SW, we need to do our best.

During the 40-day Special Devotion I believe there's beautiful stories. And because of that Devotion, going to Komundo. she conceived, and the cherry blossom tree actually had a fruit. And I'm not sure what Padji's name will be after born, but they are actually living a victorious life of faith and I truly hope that they will live together happily and become a family that can be victorious through Cheon Shim Won

Devotion.

We heard the amazing Hyo Jeong Performance. I believe that through the Yeongseong Academy, we are able to hear such an amazing performance.

Tonight we were able to hear the precious testimony of Brother Jonathon from France. Participating in the 40-day Yeongseong Workshop, he has shared such amazing reflection. He Wants to deeply understand True Mother. And for the growth of his faith, he came here. But in fact, he had such a difficult times before he came here. He had a herniated disc and other illness of his spine. And having this pain in his spine and entire body, he got depressed. He was angry at his family and was not able to continue his work and had to quit his job.

Up until then, he tried every type of medication drug and physical therapy. But when having to quit his job, his wife said, 'You need to go to the 40-day Workshop.' And I believe that Heavenly Parent Worked through his wife. But for his wife's plea he might not have had the heart to come and join the 40-day Workshop.

Everything was difficult and it was his limit. The first day doing a bowing condition to continue 40 days... How painful and difficult for his body. He felt like he was fainting. Some would just have gone to the back because of the spine condition, or just made a standing bow, but he committed to the condition.

And the dormitory for the Yeongseong brothers is on the 2nd basement floor of the hospital. The way up to his accommodation was so difficult also. But all the time, thinking about his wife, he made his resolve, and he was able to be victorious on the first day.

On the 2nd day, he said he went to the Tree of Blessing. How difficult and difficult was his path. He felt like his body was collapsing. Those who do not have such illness and pain don't know what kind of pain, and also like his knee was tearing apart. How painful would that be?

But he saw the Water of Life, and it is said that is is a Water that Heaven has Prepared to be a Water of Healing. When you drink this Water with absolute conviction, Heavenly Parent will Work. Some may have just swallowed it, but he had the thought that he needed to drink it with Belief.

And he sincerely Prayed, Heavenly Parent, 'Please restore me. Please restore my body and mind and my lost spirituality and strength. Please let me become a healthy husband and father for a beloved wife and sons. I believe he prayed with great sincerity, and amazingly, right after his prayer, the pain of his knee, the pain that felt like tearing, he felt it gradually go away.

How thirsty he was... He drank a lot of Water. And participating in the Chanyang on the third day with all of his strength, and a miraculous thing happened that is hard to believe. For the first time in several years, when he woke up, there was no pain. He no longer needed the painkillers he had desperately needed before. For him, who had lived with constant pain, he was so grateful and amazed. How great a Blessing it was even within 3 days, and even no one gave ansu. This type of thing happened.

He was able to resolve it himself. The Living Heavenly Parent Worked through his mind and body. Heavenly Parent has Worked through his spiritual and physical senses. And all of the spirits that wanted to give him pain were resolved through that resonance.

I believe, as we are nearing the 1,700 Cheon Shim Won Vigil, please believe in even greater Grace with all the more of your participation. Now he is able to move things as in the past was unimaginable. How joyful it is when he is able now to serve the brothers and sisters. He now resolved to become a much better father and husband for his sons and his wife, and make a happy family that give back Joy to Heavenly Parent.

I hope his wish to be a great Blessing to his family and community is realized after restoring everything spiritually and physically in this Workshop. All of the leaders should have the experience of Cheon Shim Won and then give a testimony. And I hope for the leaders not just to leave it with your body being ill, but to make the breakthrough with all of your Devotion. I truly believe miraculous things can happen so that you can testify.

Also, the international 40-day was given. We don't have many international members and I hope many can come and be absolutely restored so that more members can come after that. We really can't afford... If they come also from the original HQ and have a Pilgrimage to Gapyeong... Obunga Washim also gave an amazing testimony shared in the Gapyeong Church, such a realistic testimony through AI, being able to resolve the works of the dark spirits. This is an era where we can live in the Cheon Il Guk.

Also, Trainee Yang Boran, brother from Taiwan, he had such an amazing testimony. He had fear, anxiety and also thoughts of wanting to kill someone and to kill himself. But he was able to realize that was the works of the resentment spirits, and he was able to resolve it. And then amazing Grace happened where all was resolved.

If resentments spirits that have been working through leaders are not able to maintain their dominance, then war will break out. We need to resolve resentments of spirits through the lectures and through Principled Life, also through the CheonBo Providence. We need to share with all the humanities so that only the good spirits can work and they can enter the Heaven Realm on earth (the Realm of Attendance of the King Mother and Father First Ancestors).

To isolate satanic works is to understand how to resolve resentments of spirits. Those spirits can work through the physical body only when we have reciprocal relationship with them. but instead work to liberate them. We need to only reciprocate with Heavenly Parent and True Parents and then with each other. So, we need to really reflect on ourselves, if we have any base like anger within us.

We need to know the identity of the spirit and shout to the being that is working through you. ((Shout the Name Holy Mother Han)) Then we can identify the works ((against each other and our Truth Reciprocation with True Parents)), and individual resurrection can then happen and we can be victorious. Now is the time for such things to happen.

Yeongseong trainees are going to their communities, and it is actually a time when all of the churches in the field will be revived. And the fact that the Yeongseong graduates are going back to their communities and holding WSs there with what they learned, this is an amazing and important Providence. Please pray and act so that the Grace of Cheon Shim Won may be shared with the fields when trainees return.

In the past we were not able to see such miraculous works as with the 3-day WSs and the testimonies we heard. When we pray and offer calling out conditions, what seems impossible is made possible in our communities. We should not thing that anything is just not possible but move with resolve until the very end. With that mindset, we can know ever greater Works. Heavenly Parent and True Father are beside us 'Waiting' for us to have that resolve.

True Father is beside us and waiting and looking upon each and every one of us. The pure water receive a

lot of Visions, and one of them saw True Father come with the Hyo Jeong Rod and Asking, 'Who are you?' And we need to be able to say, 'I am a child of Heavenly Parent'. But someone who received the Rod was not able to say, 'I am a child of Heavenly Parent.' There was a Vision and that Message was shared to me. True Father with Firey Eyes is Looking upon us. We can be able to see True Father's Spirit enter anyone at an instant.

When Jesus was Resurrected, He Appeared in all the places around the world, and True Father as well. True Father will be able to Work through each and every one of us. When we think about that, if our Devotion gets deeper and deeper, thinking that the Last Days is Come. I truly hope that this is a time when we can pray with such gratitude. Aju.
