OPENING PRAYER:

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

We Offer our heartfelt Gratitude for the Grace and Love that Guided us to this Cheon Shim Won, BLESSED as a Place where humankind can ALWAYS Experience Attending and Living with Heavenly Parent and True Parents and as a Venue to Commune with the Heavenly Spirit World. (WOW)

We engrave deeply in our hearts the Words, 'If you live with true love for the sake of others, you go up, but if you love for yourself, you go down.

Please help us realize that, depending on what kind of Heart we have today, what kind of Words we speak, and for Whom we live, the Way to Fulfill the Will and Build the Heaven Realm (of King Mother and King Father Kingdom of Heaven Realm) Opens Up.

In our family, let us give life to one another with the Warm Word. Let us Carry Together the burdens of struggling members and in our Trusted Positions, Let us Shoulder with utmost Devotion even the unseen, small responsibilities. By doing so, wherever we stay and whoever we meet, please allow them to feel True Parents's Love. Please Work.

Heavenly Parent of Love and Grace, holding onto Heavenly Parent's Words that when one is deeply moved by Grace and Resolved for Heaven in one's life, and steps forward, Heaven Personally Accompanies them.

Please awaken our hearts if they have grown numb with family arguing. Let us recover the gratitude and deep emotion from when we first Heard the Principle and First Knew the Parents' Love. Please Grant us a Pure and Clear Spirit that Reflects upon ourself at the single phrase of the Words, 'Shed Tears of Gratitude and Sing a Verse of Praise,' and Discover Heaven's Love, even within HJ Testimonies.

We Yearn for True Father in Heaven. Please be with us at this time. May all the Good Spirits Gather Devotion together so that the Hearts of every one of us Resonate with Cheonshim. Please Work through us. Please Grant Comfort to the members who have come carrying great Pain. Please Give Great Strength

to the exhausted members. Please Give Your Wisdom and Courage to the children Seeking their Path Forward.

Please Work so that the members in the field and those taking part across the world may be one within True Parents' Love. Please Work through us.

In particular, Please Protect the Safety and Well-Being and Health of True Mother, Who is Walking the Path of Suffering on this 402nd Day. Let our small Devotion and Practices Become a Comfort and Joy to True Mother. Please Work. Let us Forgive, Love and Unite with one another, standing in a Position of True Sons and Filial Daughters in whom True Parents can Find Peace in our Hearts together.

Now, as we begin this Vigil Devotion, please personally Preside over all the time of Praise, Main Messages and Prayers. Please help us Discern our (Original) Hearts and Prayers and Permit us to Dedicate our Gratitude with Hyo Jeong from Beginning to the End. Before this precious and Holy time of Cheon Shim Won Vigil Devotion, please let us Rectify Heaven and once again Offer Gratitude and Glory.

Offering all these words, I pray with Gratitude in my name, Kim Ju Won of a BF in grateful Attendance to Holy Mother Han (HMH, HMH) Aju.

Name:.....

Yeongseong 40-day trainee (Brother)

(bows and gratitude)

... 23rd CheonBo Yeongseong Workshop... in 2023 I came to enter the Universal Peace Academy UPA as part of the 4th Class, Directly Governed by True Parents. I Directly Received the Love of Heavenly Parent and True Parents. I studied Theology and came to dream of becoming a public official.

However, in daily life, bumping against my own limitations and worries about faith, I would collapse, and at times, I even contemplated about doing other things, putting those agonizing things on hold, and taking a leave of absence in April 2025, I was deployed to the Entrance Ceremony at Cheonwon Gung that Heavenly Parent and True Parents had so earnestly Desired.

After that service, joining the military was not easy. But I had a heart of so much gratitude for being able to participate in the Providence. After service, I came to enlist in the Marine Corps. When they were first

serving religion in the military, I proudly revealed that I was in the Unification Church.

However, before long stories about the Unification Church began appearing on the news, and I even faced the situation where True Mother was Detained. From the position of having proudly revealed that I was a Unificationist, it became an exceedingly difficult trial. Those around me asked various questions, such as, 'What kind of Place is the Unification Church?' 'What did your Church do that caused the religious leader to be arrested?' 'What kind of Church is it?' and so on. For my part, not even properly knowing the cause, I was unable to explain.

People around me tried to attack me using content they found on the internet. All I could do was do my best in the tasks entrusted to me. At first the looks directed at me were not good. Sometimes I was scolded over trivial matters, and there were difficulties regarding interpersonal relationships. *However, I made efforts to love even those people.

With the heart that my appearance represented True Parents and represented I invested myself and made efforts to love others. As I did, gradually I began to receive recognition even from my seniors of the office. And showing and Exemplary standard, even according to True Parents's Words, I received an Exemplary Marine Award from the Commanders of the Marine Corps. applause

Furthermore, always to Establish a Vertical Standard, I made effort to Seek Heavenly Parent through HD, and through the Words and that Process, I came to Feel Heavenly Parent's Heart Wishing to Protect True Parents through me. Although I realized such a heart, I had not yet resolved the worries about public mission within myself, and without resolving those worries, I could not receive a definite answer.

Desiring earnestly to resolve such a frustrated heart as quickly as possible, I sought to find that answer through Yeongseong Workshop. Looking at the dates, thankfully, looking at being recognized until then, I was granted an early discharge from the military and became able to Attend Yeongseong Workshop.

It had been a long time since I Attended Workshop... In the evening time, during the Chanyang Session, when I would close my eyes and was doing my ansu on my head, True Father Appeared and Approached closer and closer to me, and bowing His Head, Smiling to my face He Said, 'You have come well.' At that time, without even realizing it, I came to shed tears.

I came to Feel that True Father Looked at my face and Welcomed me.

To repay that Love, I made up my mind to participate diligently in the Workshop, and during the HJ Praise in the Vigil Devotion, we came to sing 'Mother's Request'. Among the lyrics, the line to rise proudly and not hesitate, for I am always Listening to your Prayer.' Through those Words, I came to realize that Heavenly Parent was always Listening whenever I was Searching, always Giving Answers and Protecting me.

Through the people around me, Heavenly Parent Gave me many answers to relationship issues, helping me resolve them. Having thought that I already Knew Heavenly Parent, I came to Realize that Heavenly Parent was always Giving me Answers Directly and through other people. When I joined the Workshop and was deliberating and praying about public mission, I came to look back on my past.

Before entering UPA, feeling so apologetic before Heaven for my wandering self, I entered UPA wishing to indemnify such a past. However, that resolution made me struggle even more within myself, thinking, 'Do I really need to do public mission? Can't I help Heaven through another path?.' Living with those thoughts over the past two years, I realized that such thoughts had made things even harder for me.

However, through this Yeongseong Workshop, I came to Feel the Heart of Heavenly Parent Seeking to find the children, and I Realized once again that True Parents, Knowing that Heart have Run Forward throughout Their Entire Lives and until now to Fulfill Heavenly Parent's Dream. Realizing Their Heart, I was Able to Resolve my worries regarding Public Mission.

During the GWs, I came to be able to make a Pilgrimage to Cheonwon Gung, which I had not been able to Visit since being deployed as staff in the past. And there I came to Feel how much True Parents Wished to Attend Heavenly Parent on this earth more than anyone else.

Among the Passages of Jeongseong Gyeong read during Cheon Shim Won and Workshop,

'God is not a God Who Sits on the Throne and Receives Glory. Toward humankind, God has been Wailing in Tears every single day until now in order to Save them.'

I came to Know that, rather than the Omnipotent and Almighty Heavenly Parent, Heavenly Parent is the One Searching for the children and Suffering Pain. And I came to Realize that Knowing such a Heart of Heavenly Parent through Cheonwon Gung, True Parents came to Attend Heavenly Parent on earth that They had Attended throughout Their Entire Lives.

As a child of Heavenly Parent and True Parents, I Resolved not to stop by merely Knowing and Realizing Heavenly Parent's Heart, but to become a child who moves so that all humankind across the world can Attend True Parents for Heavenly Parent Substantially (to make Heavenly Parent's Dream) in Substance.

Furthermore, during the Praise Offering together with many other Yeongseong Workshop trainees and the Special Devotion, I came to Know that the Path Walked by these many children are each different with only one thing remaining the same. Namely, I came to Feel that the Heart Offered toward Heavenly Parent and True Parents is completely identical.

On a day when I was not feeling well and was about to report that I would not be able to go up on stage to Praise, I received the request to hold the flag in the background. I came to Feel that Heavenly Parent Wanted me to also be present within that Image of children becoming one. Thinking greatly of that as well, I Invested myself in Praising.

While waving the flag as we sang, 'We Will Fulfill. We Will Fulfill,' I came to Feel the Heart to Unite into One, like Parents' Dream. Even though the nations of our backgrounds were each different, Heavenly Parent Made me Feel that I was Together in that. And while Praising, I came to shed Tears. We are True Parents's children.

Standing in the Position of children, I Gave the Pledge that I would not merely follow after such Parents, but become a child who Assists Parents, hastily, and Protects Parents so that there are no stumbling blocks on the Path They Walk.

Taking hold once again of the Path of Public Mission that I had wanted to give up on before, from now I will become the filial piety of a child's duty. I will become a Guide who can Embrace Heavenly Parent's children back into Heavenly Parent's Bosom. Holding onto Heaven until the very end, I will grow into a leader who becomes one with Heavenly Parent and True Parents and Returns Joy to Them.

Conveying to the world, the Love Bestowed to UPA, which True Parents Established, I will strive even harder to Convey Hope and take the Lead in Fulfilling the World They Desire. May True Parents's Dream

be my own Dream. TY for listening to my inadequate testimony.

big applause (He bows again to HPs and True Parents and the Cheon Shim Won participants)

(truly a moving testimony... TYVM for that)

HJ TESTIMONY -

Name :.....

(1st gen brother) Ishan Grand Church in Giumbi South District

(bows and gratitude)

I have completed 285th General 40-day Workshop and the 18th 3-Day Resonance Prayer Workshop and currently the 25th Yeongseong Workshop. I would like to share the course of how I encountered the FF and began my life of Faith and the Grace I received and my future resolution.

I was born to Philippine parents and grew up in the Philippines. When my mother was pregnant with me, she separated from my biological father, and afterwards she married a Korean, going to Korea first and leaving me with my aunt. In 2007, I followed my mother to Korea, but due to family difficulties, he two of them eventually separated as well.

Afterward, my mother remarried to my current step father, but difficult times continued. Experiencing the separation of family, young as I was, I was always anxious that someone might leave again. And seeing other families living in harmony, I often thought, 'Can our family live like that too?' Therefore, I wanted to give love and protection to my family and vowed to form a family of my own some day.

Amidst this, in 2023 by the recommendation of my mother's friend, I considered FF for the first time. Because I had been a Christian since childhood, everything about the Unification Church was unfamiliar, and I had many doubts. However, having grown up in a difficult family environment, as I came to learn the Principle, the Word of the True Family Resonated deeply with me, discovering within the Words that he Image of the Family I had hoped for since childhood, I cherished the Wish that I too Wanted to Establish such a Family Centering on Heavenly Parent.

In order to know Heavenly Parent and True Parents more deeply and learn a life of Attendance, I participated in this Yeongseong Workshop. As a 1st generation member, I had many questions. I wanted to know how the Christian teachings I had learned since childhood connect with the Words of Principle, how the beginning of faith differ from 1st generation and 2nd generations, and what the words 'sin' and 'fall' mean.

Furthermore, I wanted to Know with what Heart and Attitude I should Attend Heavenly Parent and True

Parents of HEH. In this Workshop, through Lectures and HD, I have Resolved those long-held questions one by one. Although there are still parts I do not know, I Want to Establish the Roots of my Fatih by Asking and Learning and Seeking again.

Desiring not to miss a single Word from President Lee Gi-seong's Messages, HD and Intensive Prayer Messages, I took diligent notes to keep them in my heart. Among them what resonated the most was that when we take hold of Spirit and Truth and Resonate with Cheonshim, Heaven's Work will definitely be Accomplished.

Through this and HD Word I am learning to make honest prayers and put into practice what I have learned. The most difficult Devotion of the Yeongseong Workshop, and the Devotion that transformed my heart was the calling out name prayer for my step father. Meeting my step father when I was 12 years old, he caused deep wounds within the family, making his very name hard to utter.

When I remembered the family arguments and my mother's words saying, 'It would be better if you did not come home, in order to avoid the conflicts.' In that way I ended up living alone from the family, and on holidays such as Chuseok (Thanksgiving of Korea), when families spent time together, there were many days I spent alone. I wanted to be with my family as well, but not being able to do so was so sorrowful, and not knowing how to resolve it, I merely covered it up.

However, once I started the calling out prayer, memories resurfaced. Tears poured down and anger and fear welled up, so that there were even days when I stopped praying. And amidst that I heard a testimony from someone who had wounds similar to mine and they came to understand the other person's heart through the calling out name prayer.

Reflecting on the words from the Special Lecture on Calling Out Name Prayer, regarding the Devotion of Investing one's time and heart for one person, I closed my eyes once more and called that person's name. As I Prayed repeatedly such a question arose within me for the first time,

'Did he also have circumstances or pain that I did not know about?'

I have not yet completely forgiven him. However, from memories that once brought only pain, the desire to try to understand him began to arise. To me, that small change was a great Grace. After finishing the Workshop, I will personally visit my family and share my honest heart (tears).

While praying, I also looked back on my mother's life, thinking about how difficult it must have been while raising me in unfamiliar Korea during differences of languages and culture, brought tears to my eyes. My mother's circumstance which I had failed to consider because my own pain was so great, now surfaces to my mind. Now wishing that my mother's feelings will be recognized as well as my own, I want to express my Gratitude.

And having only been able to pray silently, I began to speak out my heart and pain aloud, crying 'Aboji' 'Omoni'!, (tears) and when I felt that Heavenly Parent was Listening to my heart, I Received great comfort.

Another thing I Desired to gain from this Workshop was absolute faith. Last August I met my 2nd step father again after 16 years, from whom I had separated from in my childhood. At that meeting I heard for the first time that my father was absorbed in another religion and could not look after the family. Thinking of those circumstances belatedly, I was greatly shocked.

I deeply felt that the faith chosen by one person affected not only one's self but also the spouse and children. Therefore, I Want to become a person who Learns the Words on my own, asks questions, and takes Responsibility for the faith I have chosen... big applause

Furthermore, I go to the Tree of Loyalty and pray that I may place Heavenly Parent and True Parents at the Center no matter what circumstances and put the Words into Practice. Furthermore, I want to Establish a family that passes on the love to my children that I so earnestly desired. I hope to live a life of (true) loving and taking Responsibility for my family. I also learned the preciousness of Offering Devotion together.

At first I Want to focus on my personal Devotion, but taking on the role of a group leader, I came to look after my fellow trainees. One day a Yeongseong trainee who was receiving the Workshop together with me, shed tears and confessed that it was so hard that he felt like giving up. Because I also had difficult moments, that story did not feel like someone else's matter. We set the goal that all of us would make it together until the Graduation Ceremony.

In that way, together with 4 male trainees who had Attended together from the General 40-Day Workshop all the way to the Yeongseong Workshop, we began the Devotion of 120 bows every day, and up until today, we have Offered 2,000 bows... applause

At first it was hard, but we encouraged each other. And seeing the trainees who had been struggling especially hard, gaining strength little by little, I also gained strength. Whereas I would have wanted to stop if I were alone, having comrades around me made the saying, 'A life of faith requires comrades' resonated in my body.

Moving forward, I want to take on ministry in the church field and help those who, like me, are struggling through their life of faith amidst wounds and difficulties. In particular, I want to go first to youth and Seonghwa members who have left the church, or whose visits have become rare, listen to what was difficult for them and help.

I too came to this Place Receiving the Patience and Love of Heavenly Parent and True Parents and members. Now, I will pray together by their Side and Receive Their Love through the Workshop (to true love each other) investing for the preciousness of a true family. I will help them feel love within the community again, recover their faith Restored as children of Heavenly Parent and True Parents. (tears) applause

Moving forward I also want to participate in the Moshim Workshop to understand more deeply the lifestyle of Attendance. I will put into practice the Grace Received from this Workshop into practice, starting with small actions in my family and in the church field. The love that I have earnestly desired I will now convey to others, and I will become a comrade who walks alongside those walking the difficult path of faith.

Without letting go of the Words and Prayer and Responsibility of the Faith I have chosen, I will become a child who brings Joy to Heavenly Parent and True Parents of HEH. I sincerely thank you for listening to my inadequate testimony. applause

BREAK and BUSKING

Hoon Dok Hae

A TC that trains the practical application of true love is our church. The river that was flowing close to the sea, where does that river flow? The SW is like sea water. Every human being will eventually go to the SW. Fresh water fish die in the sea water. If they enter the salty sea water, they suffocate. That is why we need to become accustomed to it. The Unification Church is the Place where one trains on earth to know the Content of the SW.

The Unification Church is the Place for Application of True Love and Love that Lives for the Sake of Others. That is the Unification Church. It is the TC for forming the Substantial Embodiment of Love, Living for the Sake of Others. Because God Lives for the Sake of Others, if you Live for the Sake of Others, you will be Welcomed wherever you go. Wherever you go, there's no backlash.

The Wrapping Up of Love has Room to Spare, even after Wrapping Up God. God and the Universe are like that. Wrapping Up that Electricity can travel 300 million meters in a single second. God would Travel even faster than that, yet the Wrapping Cloth of Love is so Vast that even if one runs with all one's might with that Wrapping Cloth of Love, no accidents will happen.

No matter how vast the Universe may be, it is design to be Centered on that Love. It does not Travel in a straight line. The person who Possesses that Love, Possesses the Universe. And the Person that Possesses the Universe Exercises the Meaning of the Universe. It is the Earth Life for Training in this kind of Love.

Living in the Public Square is what human life is. If you live for the sake of others, you go on. If you live to love yourself, you go down. Hell or the Kingdom of Heaven ((Heavenly King Mother and Heavenly King Father Realm)). When one takes pleasure centered on the physical body, it becomes a Satan Ballroom. When one absolutely takes pleasure centering on the (Heavenward) Mind, it becomes God's Ballroom.

God could not become Someone Who Rejoices Centering upon the physical body. If one absolutely takes pleasure in the physical body, one falls into hell and perishes. If you are deeply moved by Grace, resolve with your life and step forward and God will hold the microphone (of Word for your support). It is the same with the Master.

Therefore, if you become intoxicated with these Words to the point where you forget to eat, forget to

sleep and forget your very physical living and rise to such a level, any one of you can take over and do the Work he Master has been Doing. This Action is Magnificent. Aju

HJ PRAISE - Cheonshim Choir - 'Way Maker'

PRESIDENT LEE GI-SEONG'S MESSAGE:

As we come to this year, for the first time it has become the negative degree Celsius temperature. Thank you so much to everyone for coming. Today has been the 402nd Day since True Mother is Walking the Course of trial. We have come to Offer 1,686th Cheon Shim Won Special Vigil Devotion.

Throughout the world 18,900 Places of more than 40,000 brothers and sisters have gathered...

700th and 800th Vigils and church pastor's Message:

Today we have come to the 888th Vigil and 43 members have come to the church to Attend tonight. Today, we visited the DMZ and went to Kyungju. There are Japanese members who have come to visit there. And it was truly meaningful. And they are here to celebrate such a beautiful day. As we hope for the unification of North and South Korea, the Japanese members that came, I believe this is by no means a coincidence.

Through consistent Devotion, we will gather our hearts, and all our members conviction is getting stronger that we will bear fruit. With that resolve, we are now moving forward toward the 900th Vigil and 1,000 Vigil, we Offer our Prayer, Hoping that True Mother will be acquitted and released for return to Cheonjung Gung. We will continue to Offer Devotion.' (This is the message I received from Tensahong? Church pastor)

All the churches that are piling the Tower of Devotion, if you can gather one more, two more, three more members, all the churches in Korea, I truly hope that they can revive all Spirit and Truth, spurring all the churches to be able to revive together.

And 3,000 churches and families are connected... this church sent 7 to Attend the Korea Workshop... and every day they in H Japan Church check this number consistently 420... I appreciate that. I am grateful for churches consistently checking and reporting...

another church's 300th Vigil and I received a message of their faith that their devotion will bear fruit. And just like the water boils only at 300 degrees, the spiritual experiences will come and Works will unfold. In you church, there might be someone who suddenly, not as every before, here's from the spirit world, that is to be grateful for.

So, if you settle things down and begin anew, you will have absolute faith, the standard of absolute faith, when you have it within yourself, you can have it within your church as well. When you limit things to only some things to happen, then you are breaking what Heaven has for you. So, the greater Grace can come (from the boiling point of standard of prayer and devotion for 'absolute' faith by that consistent

obedience).

When your absolute obedience, faith, love standard is settled down, then the pastors and leaders and Workshop trainees, when they Offer the One-Heart Prayer, then they can solve all the problems. That's when such spiritual problems are being made within your church.

So just like it is based on how much we study that we are able to get a better score on our exams, you will be able to be recognized as someone who has ability. So, if you have problems in your church, that doesn't mean you have to stay locked down by that problem. You can know that Heaven is Guiding you for Giving you an Example to see if you can solve that problem. The more the leaders take the chance Heaven is Giving to solve those problems, the more the leaders will come to have the bigger and better ability.

And that church will become where Heaven's Authority and Power will be Bestowed. So, the more problems you have in your church, please think of that with gratitude for how you can overcome them (and be a testimony of attraction to expand)

Today, our Brother Kim Song Oh sang 'Thank You'... Hopefully, our brother will sing to comfort our True Mother in Person. I believe that day will come soon, and for that day, I hope he practices a lot.

Today, we heard the testimony of our brother Kim Gi nam trainee of the 25th Yeongseong Workshop, he resolved to join UPA, and he began the university. However, he saw the limitation and he set the leave of absence. And in the military he proudly wrote down his membership with the Unification Church and proclaimed it to those people.

We can see that his faith is very strong. Even when True Mother's trial kept coming out in the media (with negative coverage), because he was known as a Unificationist, his seniors and his juniors, how strangely would they look at him in his face and asking, 'What kind of church is that?' 'What did your leader do to make that happen?'.

So, in that persecution, he also walked through the trial. He participated in the cross of True Mother. In this way, the trial is not just for True Mother, but for all the leaders and BFs and 2nd, 3rd and 4th generations. It was also a period for them to receive trials. So, when you carry the cross, it would be better if two people hold it together, if ten and ten thousand people hold it together. It will become lighter the more it is shared.

That is why, even before True Mother's hardship and trial, and before True Mother's acquittal and release, all of us with the heart of the cross that True Mother is holding, we must Offer Devotion and Offer all our effort into this. And we must have the greater number than yesterday, and tomorrow greater number than today.

Those who were having a hard time, they have come to the GWs, and they saw this Place thinking, 'Wow, I see a lot of members and a lot of youth here.' They received a lot of grace through that as many members testified about.

So, if we have the GWs but nobody comes, only just flies... How would members feel? They would feel discouraged. But, coming here to the GWs, there were so many people. And even the cruise and the Begonia Park gave out free tickets. And people said, 'Wow, such day came.' So, that's why we must gather. Not only the TC but all of the churches, the greater the number becomes, the greater the strength they will have. By doing so, Mother's Cross will become lighter and finally the glorious day will come to

us.

However, even if you are persecuted, we must be the ones who have Fulfilled True Mother's Words. All the persecutors, we have forgiven them and love them, and then we become more Heavenly united. As we practice True Mother's Words, the younger ones as well as his seniors started to realize how he was the one practicing True Mother's Words, and he was recognized for how he was a representative of True Mother (even he did not properly understand about the trial to answer their questions), and he was given a special award.

However, he kept wondering whether he should pursue a public mission or not. In order to receive that answer, and he felt he must go to the Yeongseong Workshop as soon as possible to receive that answer (and surprisingly, he was granted an early leave from the military). And without taking any vacation time, he came to the Workshop. We can see how much Heaven was happy.

Because of the Devotion on the first day of Chanyang yoksa, True Father Appeared before him, and our brother shed tears. Also, with the HJ Praise verse, 'Rise up without discouragement. Your prayer is always heard.' And while singing this praise, all the Devotion he had been Offering while he was in the military, he realize Heaven had been Listening.

And he was able to make such a strong resolve that he will cling onto the path of public mission and become the filial son who Offers Filial Piety to Heavenly Parent, a son that pays back the Love that he Received. And he shouts out for Heavenly Parent's Dream to become his Dream. And with the spirit also of the Marine Corps, I believe he will be Victorious. applause of encouragement

And our Milae Central Church sang the song 'Becoming One with True Mother'. And the day will come when we will take back for Heaven multiple times more than what we have given over to the Heaven enemy. So, I hope you believe in the Omnipotent, Omnipresent and Almighty Heavenly Parent, and move forward.

Our Brother Kim Yo Han is a first generation member, also shared how he eventually came to the Yeongseong Workshop. And his Philippine mother divorced his father when she was pregnant with him. She married and divorced a second time, and now she is living with her third husband. However, because the son is not the step father's child, he was not embracing him. So, the mother wants to stay with the son, but because of the difficult environment for the son, even if they were in the same place, she didn't want him to face the great conflict there (and he came to be living somewhere else with great loneliness).

When you look at todays HD Words, the Wrapping Cloth of Love has Room to Spare Even when Wrapping Up God and this Universe. Even God is like that. Let us suppose that from the individual level to the cosmic level, the enemy has existed, but Heavenly Parent has Embraced all enemies with Heavenly Parent's Cloth of Love.

As we talk about Love and as we talk about the enemy of Love amongst the Christian pastors, those who speak about God's Love, persecute other churches saying they are heretics and cults. And with that mind, they have killed many, many people. They couldn't Embrace others with God's Cloth of Love. That's why God had to start a new religion.

With the former religions, the peaceful world, the world of love and true freedom,cannot be Established. So, you must reflect yourself, 'How big is your Cloth of Love?' Pastor Tsujintae of Buktown, I believe he Wrapped Up Buktown with his Cloth of Love. And I hope that all the leaders will True Love that land that they are in charge of (after how True Mother Loves that Land with God's Wrapping Cloth).

If they have that Cloth of Love, entire peoples, entire residents will come to them and even the nation will follow them. So, that is why True Mother Taught us (by Example) Told us to Forgive, Love and Unite.

So, that is why our Brother Kim Yo Han became connected to our church and community in 2023, and as he listened to the Words, although what he heard was different from the Christian Church, he studied further and learned (the Connection that is there). And he learned about resonance from Workshop, and learned that if we move forward with Conviction in Prayer and Devotion, the Answer will come, the sincere Prayer will Bear Fruit.

As he Offered the Calling Out Prayer, he still felt anger that was there, but he started to grow his heart to Embrace his stepfather who was hating him, and also the mother who sent him to his aunt to be raised separately. He was resentful, but started to try to understand his mother and stepfather more, receiving the thought 'Maybe his stepfather had an even sadder precedent of circumstance'.

Beginning to see things differently, he started to Offer Prayer of Gratitude about his mother. And now, with that Cloth of Love he will Embrace dormant members and 2nd generation young members. And in order to become a person who can move forward with the Will, now he is offering full bow Devotion of 120 bows a day with a group of his comrades, his brothers.

And after this Yeongseong Workshop, he said he is resoLved to Attend a Moshim Workshop and learn deeply. He will go back to his church, his community and region, and bring back the joy and happiness to Heavenly Parent and True Parents. This is his resolution.

Truly, he has faced a lot of trials and hardship, but with the realizations he Received, I believe he will become an amazing filial son. applause of encouragement.

Today, the 18th Yeongseong 3-Day Resonance Prayer Workshop Report was given. And Oh Yun Ok, the new member, as she Offered Prayer and Devotion at Cheon Shim Won, she heard True Mother's Voice, 'True Mother's Words are the Truth, and True Mother's Words will be Fulfilled. In order for all the churches in Korea and Japan and America and in the world to move forward with Spirit and Truth of this Era, the 3-Day Resonance Prayer is being Conducted.

And in November, in Heavenly Japan, already 1,600 members have registered. 600 members have reserved a seat for the Workshop and are preparing for the Workshop in November. Heavenly Korea must compete. Although there are many members who did not seem to want to come, all the leaders, in order not to be embarrassed, you must bring your members to the Workshop with resolution to make a new Work to Unfold. If you move forward in that way, I believe Heaven will Work. I hope you have a Graceful time tonight. TY
