

FFWPU UK: Introducing Lineage Of Legends website

Introducing Lineage of Legends!

For decades, the most remarkable stories of Unification Church members have lived only in people's memories - shared at a workshop, retold late into the night, and passed on as hearsay.

These stories have pushed the providence forward and deserve to be etched into history, not left to fade with time.

That's why I'm launching [Lineage-of-Legends.com](https://lineage-of-legends.com), an independent project to tell the shocking, true stories of our community in their own words.

It shines a light on the ordinary lives interrupted by something extraordinary: how these special people found their faith, the trials that tested it, the sacrifices no one saw, and the moments that changed everything.

These are our parents and our brothers and sisters, after all. We can't let them be forgotten.

The stories that make us laugh, make us cry, and above all teach us something invaluable for our own lives.

Get involved

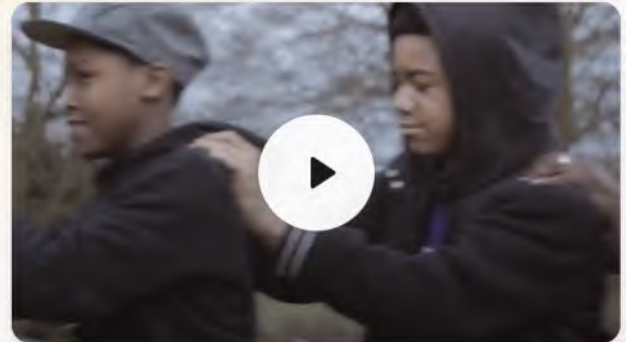

Have a look - and if you have a story of your own, or know someone whose story shouldn't be lost, we'd love to hear it. We accept both written and audio testimonies, and we can arrange a live call to capture your story for everyone to hear.

- Michael Schroder

The stories that *should never* be forgotten.

Living testimonies, memorials, history, and the lectures that built a global community. The stories and the timeline of the Unification movement, in the words of the people who lived it.

LIVING TESTIMONIES

In Their Own Words

First-person faith journeys from members of the FFWPU / Unification movement. Drawn from podcast episodes, YouTube channels, book-length memoirs, and blog posts.
