

TRUE FATHER

There is no way that I can ever forget the Love, Guidance, Understanding and Support that I received from Abbonim. He truly has the biggest, most sensitive and compassionate of hearts. I will forever be grateful that I lived at the time when I was blessed to meet and know him personally. For just to be in His presence was an indescribable experience. You felt safe and secure and His Spiritual power so energised you that I felt I could run up the most difficult mountain in a moment as lightheartedly as a bird!

After being blessed I wondered what my relationship with him would be like. For we had made our personal confessions directly to him, and He had conducted our Engagment Ceremony joining our hands together with His hands. I didnt wash my hands for a week after that!

The National Leader asked me to take a photo of Rev Moon to a well known Medium in Edinburgh. When he looked at the photo he said, "This is a photo of your Father". Then he looked at me and said, "But it cant be, but it is! It cant be but it is, and he loves you very much. But he will mainly be relating to people in High Office in the world "

He was astounded that an Oriental man had a Western daughter!!

And that was my answer. True Parents had in reality become my Parents through the Blessing, I had been engrafted to their lineage, to God's lineage, life and love.

When I was pioneering in Jordan in 1970 it was a very lonely time for me as first a Civil War was brewing in the country and people didnt socialise easily, so it was difficult to witness. When I went into the city centre to study Arabic I would pass cars bristling with guns poking through the car windows!

I was working long hours in a hospital and felt so desperate for congenial society that I was very tempted to accept some of my invitations to visit even though I hadnt been able to witness to them. I had actually decided to visit someone one day when a copy of The Way of the World plopped through the letter box. It had been sent from Korea! And when I opened it there on the frontispiece was a sermon by Father. And it said "No matter how lonely you get never deviate from the Religious Path". I was shocked by his understanding and felt overwhelmed by his kindness .

Soon after that when I was in Korea Mrs Won Bok Choi told me that Father used to speak about me every day because he was worried about what might happen to me if I got too lonely.

I went to my room and wept as i was so moved by his love and concern for one little missionary when he carried the burden of World Salvation on His sboulders.
