

Mission Weekly Newsletter

Next Gen Mission

Fun fact! Today is National Cream-Filled Donut Day.

This past week, teams were spread out in the Midwest, experiencing different states, cities, and people. Being pushed out of their comfort zones, missionaries were able to learn about themselves and, hopefully, grow closer to God, our Heavenly Parent.

Besides all the growing, the missionaries were able to have fun in their respective states! Visiting national parks, zoos, and, in general, having some good team bonding.

Now they are back on the Spiceland Youth Campus for a one-week workshop. During this time, the missionaries will reflect and digest their actionizing experience. They will also receive content about our teachings from the Mission staff to deepen their spiritual understanding.

The Spiceland Youth Campus has become the new home base for Next Gen Mission. To use this new campus for your group or event, inquire through their [website](#). And follow the campus on social media through either [Facebook](#) or [Instagram](#)!
